SURPRISE UNPROMISED.

Heney Says He Has
New Evidence.

Is Sanguine of Convicting
Glass of Bribery This
Time.

He Declares Testimony of
Zimmer Is no Longer
Necessary.

Delmas Impeaches Three Ex-
Supervisors Who Take
the Stand.

(BY THE ASSOCIATED PRESS.—P.M.)
SAN FRANCISCO, Aug. 14.—Former
Supervisors Thomas P. Loneragan,
Charles B. Borton and Michael
W. Coffey testified for the prosecution
today in the trial of former
Vice-President Louis Glass of the Pacific
States Telephone Company, charged with
bribery. They repeated in detail their
confessions of accepting each a bribe of \$5000 from Agent
Heney of the Pacific States Company to
vote against the issuance of a competitive
franchise to the Home Telephone Company,
and Coffey told, also, of sums paid him similarly by
the representative of other public utility
corporations.

In the cross-examination of Coffey,
Attorney Delmas offered in evidence
for the purpose of impeaching him as a
witness, the affidavit signed by Coffey
and seventeen other Supervisors in the
fall of 1926, to the effect that no
one of them had been guilty of any crime.

To this offer Asst. Dist. Atty. Heney
and O'Garra objected at length. The
objection was by Judge Lawlor
overruled, and the affidavit was admitted
in evidence.

The cross-examination of Loneragan
and Borton will be taken up tomorrow.

NEW EVIDENCE.

Asst. Dist. Atty. Francis J. Heney,
in his opening statement to the jury
this morning intimated that, since the
trial of Glass on the charge of bribing
Supervisors Borton, which resulted in
a disagreement, the State has obtained
new and convincing evidence which
will be sufficient to convict without
the testimony of Second Vice-President
Emil J. Zimmer to the effect that
Glass signed the checks on which
Theodore V. Halsey got the money
with which to corrupt the various
Supervisors. Zimmer has steadfastly
refused to take the witness stand.

Two witnesses were called at the
morning session. William Thomas, a
representative of the Home Telephone
Company, who testified that his company
had a franchise application pending
before the Board of Supervisors at
the time of the alleged bribery, and
John H. Ryan, clerk of the Board
of Supervisors, who corroborated the
statement by the minutes of the board.

AFTERNOON SESSION.

At the afternoon session former
Supervisor Loneragan took the stand and
repeated his confession, originally
made during the trial of Glass on the
Borton indictment, of accepting
from T. V. Halsey a bribe of \$5000, with
the promise of \$2500 additional at the
end of the year on his promise to vote
and use his influence against the
Home Telephone Company's application.

Loneragan was temporarily excused,
and Emil J. Zimmer was called. He
was absent under excuse by the court.

LONERAGAN PULLS OFF WEeping STUNT AGAIN.

(BY DIRECT WIRE TO THE TIMES.)
SAN FRANCISCO, Aug. 14.—(Exclusive
Dispatch.) Ex-Supervisor Loneragan
testified again in the Glass trial
this morning. He was not only
delighted by the previous publicity given
his crocodile tears at the mention of
his wife, that he positively wept and
gushed moisture this morning when
Heney asked him the same old question
as to whom he carried the bribe money.

Last time, he went into the weeps a
little too hastily and had to steal the
grandstand speech of Supervisor Borton.
But he had been thinking it over
yesterday. Heney asked him what he
had done with the money. "I prefer
not to answer that question," said
Loneragan, making a noise like a Mission-
street melo-drama. Heney urged him on.

"It goes to the humiliation of a party
dearer to me than life," said Tom looking
around through his dripping eyes with
considerable pride, to see how the
judge took it. The judge told him
to answer the question or be in contempt
and Tom hastily answered that he
gave the money to his wife.

WRIGHT'S SUCCESSOR STARTS.

New Ambassador to Japan Gets In-
structions from State Department
Preparatory to Trip.

(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, Aug. 14.—(Exclusive
Dispatch.) Luke Wright, retiring
American Ambassador to Japan, left
Tokyo August 13 on his way to San
Francisco. He will come direct to
Washington, for the purpose of settling
details relative to his departure for
Japan. He is expected here about
September 10.

H. Percival Dodge, secretary of the
American embassy at Tokyo, will act
in Mr. Wright's place pending the ar-
rival at Tokyo of Thomas K. O'Brien,
former Minister to Denmark, who be-
came Minister to Japan when Mr.
Wright voluntarily retired. Mr. O'Brien,
who recently conferred with the
President at Oyster Bay relative to
pending Japanese questions, today
called at the State Department to
receive last instructions before jour-
neying overland to San Francisco,
from which city he will proceed direct
to Japan.

WILL SHARE IN HONOR OF ENTERTAINING PRINCE

MRS. OGDEN MILLS.

(BY DIRECT WIRE TO THE TIMES.)

NEWPORT, Aug. 14.—(Exclusive Dispatch.) Now that it has been finally
decided that Mrs. Ogden Mills, Mrs. Stuyvesant Fish and Mrs. E. J. Ber-
nard will share the honor of entertaining Prince Henry of Sweden when
he comes to Newport in about two weeks, the heartburnings and jeal-
ousies are almost consuming this fashionable resort.

Mrs. Cornelius Vanderbilt entertained Prince Henry of Prussia when he
visited Newport and Mrs. Mills and Mrs. Fish were left out in the cold. Now
the latter are up and Mrs. Vanderbilt is down, and the entire social scale for
the season has to be readjusted.

The fact that Mrs. Mills' daughters, Gladys and Beatrice, are intimate
friends of Mrs. Alice Longworth, the President's daughter, may account in
part for the President's selection of Mrs. Mills as one of the entertainers
of the Prince. In accordance with the customs of royalty, the President
designates those who are to be the princeling's hosts and hostesses.

THE TRUSTS.

FEW CORPORATIONS HAVE VIOLATED LAW.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Aug. 14.—(Exclusive
Dispatch.) Atty.-Gen. Bonaparte made a statement today
regarding the government's policy
toward corporations. He says cor-
porations and individuals to be pro-
secuted are small in number, and points
out that, while the effect will be felt
by speculators, it will not operate to
undermine the general prosperity of
the country.

Mr. Bonaparte yesterday was shown
a recent editorial, which pointed out
that a policy of receiverships, such as
Mr. Bonaparte is reported to endorse,
would lead to placing the State in
control of all production and ex-
changes. This editorial was based
upon a published interview in which
Mr. Bonaparte was quoted as saying
that, if the fines imposed on the
Standard Oil Company were upheld,
the government might "appoint a re-
ceiver to operate the convicted trust."

"This statement is apparently based
upon a misapprehension, for which I
do not hold myself responsible. Some
reporters sought to learn from me
how a \$200,000 fine could be collected
from a \$1,000,000 corporation. I sug-
gested that it would hardly do for me
to tell them just what steps the govern-
ment might take, especially as it was
clearly premature to consider the mat-
ter before the conviction was affirmed."

RECEIVERSHIP SUGGESTION.
"It was then suggested by one of
the reporters that, if the fines should
bankrupt the company (Standard Oil
Company of Indiana) a receiver would
have to be appointed to wind up its
affairs. To this I replied that, in such
an event, the government, as the
largest creditor, would undoubtedly
have something to say as to whom
should be appointed."

"Of course, an officer of this char-
acter might find it necessary to make
in the discharge of his duty, in liquid-
ating the affairs of the bankrupt cor-
poration, some examination of the
books and financial records of other
corporations connected with the Standard
Oil Company of Indiana, and probably
this fact caused more attention to be
paid to the suggestion of the re-
porter than it might otherwise have
received."

"In the suits instituted against the
Standard Oil Company, there was no
prayer for a receivership as an alter-
nate form of relief after final decree
such as has been prayed in the Tobac-
co and Powder Trust cases. The bill
of complaint against the Standard Oil
Company did not ask for such a re-
ceivership, partly perhaps because the
idea of these receiverships had not been
suggested at the time the suit was
brought and partly because the facts
were different from those in the latter
cases."

"Another such an application will be
made later by amendment of the bill or
otherwise, is something I can say nothing
about now."

FUTURE PROSECUTIONS.

In view of the general decline of im-
portant stocks and a general fear of
radical anti-trust activity by the
government which has prevailed in
Wall street, Mr. Bonaparte was asked
this question:
"Is the business of the great corpora-
tions of the country generally conducted
on such unlawful principles that the
prosecutions deemed necessary by the
law department of the United States
will unsettle industrial conditions and
lessen our prosperity?"

Mr. Bonaparte replied:
"I know of no facts which justify
any such statement. There have been
violations of Federal statutes by some
corporations and by some individuals
and, so far as this department can ac-
complish it, the guilty corporations and
the guilty individuals will be brought
to trial and, when convicted, to punish-
ment, but the number of such is

ASKS PASS FOR HER LOVER.

(BY DIRECT WIRE TO THE TIMES.)
CHICAGO, Aug. 14.—(Exclusive Dis-
patch.) Miss Lizzie Hammond, a deaf
mute, who works in the cotton mills at
Spartanburg, S. C., has plucked heart
of grace to ask General Passenger
Agent G. J. Charlton of the Chicago
and Alton Railroad for a pass for
her lover, who pines in mute distress
for her in Aberdeen, S. D. The letter
was received by Mr. Charlton today.
It seems evident that Lizzie's physical
defects have isolated her from the
world of affairs and the knowledge that
the Hepburn bill has shut off free
transportation for all lovers, however
ardent, has rendered her desperate.

HANGMAN'S BIG DEAL.

(BY DIRECT WIRE TO THE TIMES.)
APPLETON (Wis.) Aug. 14.—(Exclu-
sive Dispatch.) The deal which John
G. Hangman of New York is engineering
will not only include the print
mills and the ground pulp and wood
mills of Wisconsin but also take in the
plant which manufactures Manila pa-
per and substitute.

GAYNOR CRITICALLY ILL.

(BY DIRECT WIRE TO THE TIMES.)
MACON (Ga.) Aug. 14.—(Exclusive
Dispatch.) John F. Gaynor, convicted
of complicity in the Savannah harbor
frauds is critically ill in jail here. He
is suffering from asthma and his con-
dition is seriously threatening his life.
The next Sonder class race will be
held tomorrow.

CARRY OUT PORTSMOUTH PACT.

Japanese and Russian Envoys To
get Present State Department
With Copy of Treaty.

(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, Aug. 14.—(Exclu-
sive Dispatch.) Baron Rosen, Russian
Ambassador, and Ambassador Aoki of
Japan, together attended the State De-
partment today with a copy of the
new convention between Russia and
Japan, designed to carry out the pro-
visions of the Treaty of Portsmouth
and providing for the "open door" pol-
icy in Manchuria.

The visit was a strictly formal one,
and accompanied with all the cere-
mony of official visits on matters of
state.

ASSASSIN'S WORK.

BOMB BARELY MISSES PEER.

Mrs. Pet Magill. For some time there has been a growing sentiment of sympathy for the accused couple in their home town, but the action of their counsel has caused deep resentment. Friends of the Magills, who have stood by them through all the dark accusations, were shocked to hear the statement issued that a fair trial was impossible in Clinton, and the sentiment has suddenly become so changed that now it is exceedingly doubtful whether this be true.

MAJESTY OF THE LAW. BUCK MUST DIE ON THE GALLOWES.

Supreme Court Affirms His Sentence.

Former Coachman, Who Shot and Killed Mrs. Cio Canfield in Los Angeles After She Had Discharged Him, Will Be Hanged Despite Insanity Plea and Appeal.

THE ASSOCIATED PRESS—P.M.

SAN FRANCISCO, Aug. 14.—Morrison Buck, who shot and killed Mrs. Cio Canfield, in Los Angeles, on January 25, 1906, must hang for the commission of his crime.

When Buck was on trial, his counsel interposed a plea of insanity, but the trial court and jury refused to accept this as a fact, and he was convicted. An appeal was taken to the Supreme Court, but that body today affirmed the judgment.

Buck was a coachman and, before the time of the murder, had been in the employ of Mrs. Canfield, a wealthy woman of Los Angeles. He was discharged, and a few weeks later, went to her house and demanded money. When his request was refused, he shot his former employer.

The crime for which Buck must pay the extreme penalty, unless executive clemency saves him, was one of the most cold-blooded and deliberate murders ever committed in Los Angeles. His victim was the wife of C. A. Canfield, millionaire oil operator. Buck had been employed at the Canfield home, but had been discharged. He wrote a note to Mrs. Canfield demanding that she give him \$2500 with which to start in business for himself. No attention was paid to the note, and on the afternoon of January 25, 1906, Buck went to the Canfield home in the Westlake district, and called for Mrs. Canfield. She met him on the front porch, and he again demanded money. She endeavored to shut him out, but he came upon her, when, without provocation, he drew a revolver and shot her dead in the head.

The murderer then seated himself within a few feet of the body of his victim and, by displaying his revolver, and on the afternoon of January 25, 1906, Buck went to the Canfield home in the Westlake district, and called for Mrs. Canfield. She met him on the front porch, and he again demanded money. She endeavored to shut him out, but he came upon her, when, without provocation, he drew a revolver and shot her dead in the head.

She met him on the front porch, and he again demanded money. She endeavored to shut him out, but he came upon her, when, without provocation, he drew a revolver and shot her dead in the head.

The murderer then seated himself within a few feet of the body of his victim and, by displaying his revolver, and on the afternoon of January 25, 1906, Buck went to the Canfield home in the Westlake district, and called for Mrs. Canfield. She met him on the front porch, and he again demanded money. She endeavored to shut him out, but he came upon her, when, without provocation, he drew a revolver and shot her dead in the head.

Resorts

INFORMATION BUREAU

4TH FLOOR TIMES BLDG.

9AM TO 6PM. OPEN DAILY

The TIMES FREE INFORMATION AND RESORT BUREAU is for the accommodation of those seeking recreation, rest and recuperation among sea-shore and mountain resorts. Particulars are furnished regarding Hotels and Private Boarding houses; their attractions, rates, etc. Photographs, circulars and transportation literature are kept on hand for inspection and distribution. Times readers can obtain here, in a few minutes, information that would take a week and in many instances longer to procure if they were compelled to write for it.

Mountain View Resort

In the San Gabriel Forest Reserve. Elevation about 2000 feet. Amid the high peaks and wooded canyons. Beautiful walks along the sparkling streams of mountain water. Unsurpassed side trips with saddle animals. Crystal Lake, Mount Islip, Pine Flats, Mount Waterman, North Baldy, Iron Fork, Fish Fork, West Fork, Cold Water, and "Old Baldy." Good deer hunting and trout fishing near camp. Amusements at camp: All kinds of games, good music and free dancing in the evening, boat riding and swimming. How to reach Mountain View Resort: Take the 8:30 a.m. Santa Fe eastbound train to Azusa from Los Angeles, where you will be met by the Mountain View stage, which will bring you to camp in time for lunch. For further information and beautiful illustrated booklet, write to HAYES POTTER, Proprietor, Azusa, Calif.

Witter Medical Springs

Lake County

The curative properties of Witter Water are known throughout the land and from far-off Carlsbad comes the weary invalid, seeking the greatest of all blessings—good health. Very seldom do the magic healing powers of Witter Water fail to restore the invalid to the old-time vigor and vitality. Many despairing sufferers from diseased conditions of the stomach, liver, kidneys and bladder who have visited these springs as "a last resort" are still living to extol their almost miraculous curative powers.

Write for rates and general information to A. J. PLOWMAN, 208 W. Seventh St., Los Angeles, Agent Witter Medical Springs Co. for Southern California. Home 2505, Main 6054. Mail Van Ness Ave., San Francisco.

WITTER WATER CURES KIDNEY AND BLADDER TROUBLE.

Blumauer Inhalatorium

All sufferers from CATARRH, BRONCHITIS, ASTHMA and TUBERCULOSIS should visit the BLUMAUER INHALATORIUM, where BULLING'S METHOD OF MUNCH for the treatment of these diseases is given. Send for booklet and address information.

409 Pacific Electric Building. Phone F 1467

Hotel Redondo

Strains Camp, Mt. Wilson

No need of cooking. Grocery and delicatessen in camp. Information Peck-Judah Co., 222 S. Spring St., or Whittlock's, 207 West 2d.

WIRE OBSTRUCTORS WILL BE ARRESTED.

Detectives Secure Evidence Against Railroad Operators and Strikers and Prompt Prosecutions Will Ensnare. Local Offices Now Little Affected.

BECAUSE of the malicious attempts of union railroad operators to tie up the business of the telegraph companies by tampering with the wires and intercepting dispatches, detectives in the employ of the telegraph companies are endeavoring to secure sufficient evidence to warrant arrests. It is believed that several members of the Order of Railway Telegraphers, working on the lines between this city and San Francisco, will be in the hands of the police within a few days.

The strikers have evidently advised the union railroad operators to delay the business of the telegraph companies in every way possible. The destruction of property, obstruction of wires and delay of important messages are the tactics to be employed, apparently.

CRIMINAL TACTICS
Disseminated at the ease with which the Western Union and the Postal Telegraph companies are restoring communications and sending all messages, the railroad operators have resorted to the methods in vogue in San Francisco during the carmen's strike. It is believed that the instruction of Secretary Quick of the Order of Railroad Telegraphers, forbidding any interference with the business of the telegraph companies, has either been deliberately disregarded, or else that the message of the secretary had meaning between the lines.

By instruments designed to locate breaks in the line, the point where the wires have been opened and messages held up have been determined. The entire line of nearly 500 miles is now being carefully watched at all the stations. The guilty operators, when arrested, will be immediately taken before a justice in the county where the offense is committed and special counsel will aid in the speedy prosecutions of all such cases.

NO FRICTION IN OFFICE.
This criminal attempt on the part of railroad operators to block the progress made by the telegraph companies in overcoming the congestion of business, incident to the strike, is practically the only local trouble existing. At the Western Union office, last night, Superintendent F. H. Lamb said that his force was amply sufficient for handling the night day and night messages. The non-union operators are working without friction. There is an air of cheerfulness manifest in the office and the strikers are sending their patches in a manner that is in strong contrast to the perfunctory work of the union men, who had been sulky and disgruntled for weeks prior to the strike.

The only occasion for the delay notices posted in our office is the attempt to tie up our lines. Superintendent Lamb stated last night, "A number of wires are working perfectly. I dare not tell you what they are, lest the union operators attempt to interfere with them. I am sorry that such methods are taken to interfere with our legitimate business."

NOT FIGHTING IN OPEN.
"I am willing to fight in the open but these fellows are trying to effect victory over the strikers by resorting to methods that are designated as crimes by the State law. You may say that all offenders will be dealt with severely. We are in the possession of sufficient evidence to warrant number of arrests within a few days. I was informed tonight that the railroad detectives have several men spotted."

With a force of operators sufficient to handle all business, Superintendent Lewis of the Postal Telegraph Company was in a very calm frame of mind last night. "We are adding to our force every day, thus enabling our men to work in shorter shifts. Each night we clear up all the business before the next morning. It has been stated by friends of the strikers that we have been sending out messages with advanced dates. This is untrue. Dispatches are sent with the customary promptness, except when the strikers, or their allies, obstruct the wires."

Superintendent Lewis suggested, however, that it would be well if persons in the habit of sending trivial messages would remember that business firms have matters requiring immediate attention. Telegrams announcing death and funeral notices have preference over messages that might wait without inconvenience to the sender or receiver.

By the end of the week, business at both of the local telegraph offices in this city will be running as though there had been no walk-out.

DIED A-BORNIN'

STRIKE BROKEN, SAY COMPANIES.

DECLARE BUSINESS HAS BECOME NEARLY NORMAL.

Chicago Deserter: Anxious to Await Arrival of Small, Whom They Will Urge to Immediately Order General Walkout—Associated Press in Good Shape.

CHICAGO, Aug. 14.—[Exclusive Dispatch.] One word, "abeyance," will sum up the strike situation. Peace negotiations are still hanging fire and the failure of President Small to reach the city, as expected, will delay the issuance of the general strike order till tomorrow. The general strike order will mean but little to the general situation, however, as there is practically a general strike on now.

The companies assert that business has become nearly normal and that, as far as they are concerned, the strike is broken. The strikers, on the other hand, claim that the tie-up is practically complete and that they have the fight won now.

President Small of the telegraphers will reach the city late tomorrow afternoon. The general strike order is being delayed till his arrival, but local in all parts of the country are not waiting for it, but are joining with the strikers.

As appeals to President Roosevelt are being made from all parts of the country in line with that sent out by the Chicago Board of Trade, No word has yet been received from the President. The strikers today sent a message to President Roosevelt in which they said that the union is not in-

terfering with the dispatch of government business in any direct manner. **ARMOUR'S OPERATORS QUIT.**

The only change in the local situation today was the walk-out of the operators employed by Armour & Co. in the stock yards, after a two hours conference with their employers. "I hope you boys will win," said J. Ogden Armour, after the futile meeting. He then announced that his concern would make the same concession as the commercial companies, when the strike is settled. It is expected that the operators of the other big butchers will also strike.

Labor Commissioner Neill will return to Washington tomorrow. If President Small reaches the city before his departure, he will endeavor to see him, but will not delay his departure. He will be accompanied by President Samuel Gompers of the American Federation of Labor, who goes to attend a session of the national executive board of that body. It is certain that the telegraph strike will not be reached at the hands of this committee. It is expected that it will vote to move and financial support of the big labor organization.

ATTITUDE OF RAILROAD MEN.
President Gompers declares that efforts at peace have not failed but that the situation is at present so tense on each side that it would be suicidal for either to consider negotiations.

The railway telegraphers claim that their contracts with the general managers of the railroads having been broken many instances during the strike will lead to a strike of that body if commercial business is forced upon them. They assert that, if a satisfactory agreement is not reached within ten days, it will be hard to hold the men back from a general strike.

Everything now hinges on the arrival of President Small. He is due to arrive at Chicago at 12:30 tomorrow but it is reported as being so late that it will not reach that city till late in the afternoon. So anxious are the local strikers to have the general order issued at once they are to meet him at the depot and urge the signing of it immediately. A delegation of 500 strong will greet him on his arrival at the depot. They fear that the conservative members of the National Executive Board may be able to persuade him to withhold the signing of the strike order, if given an opportunity.

It will be the first real demonstration since the men went out and it is their intention to prove to President Small that nothing short of a general tie-up of all points will satisfy them.

ASSOCIATED PRESS WORKING.
At the offices of the Associated Press it was said that news was coming freely from nearly all points. One direct wire was opened today as far west as Denver and that regular service was being maintained from San Francisco and Los Angeles over the Western Union and Postal wires. Lines were also opened up to Atlanta, Ga., through Louisville, Ky., and to Memphis through Columbus, O., and Indianapolis. South of Memphis and into the Texas field the news association has always depended more or less upon the wires of the two companies, whose men are on strike, but messages were handled from that section without delay.

The Western Union announced tonight the resumption tomorrow of the regular service to the Chicago Board of Trade.

PRESIDENT ADOPTS "HANDS OFF" POLICY.

CHICAGO, Aug. 14.—[Exclusive Dispatch.] President Small will not concern himself personally with the telegraph strike, according to the best information obtainable tonight, although commercial bodies all over the country have asked him to do so.

With Labor Commissioner Neill in Chicago the government considers that the limit of its functions and authority in the matter is being exercised.

ASSOCIATED PRESS WINS IN CHICAGO.

CHICAGO, Aug. 14.—[Associated Press.] Press leased wire circuits worked from Chicago were restored to a normal basis this morning.

KIDNAPED BY TRAMPS.

Seven-Year-Old Buffalo Boy Escapes from His Captor at Pittsburgh, Pennsylvania.

CHICAGO, Aug. 14.—[Exclusive Dispatch.] A 7-year-old boy, who says he was kidnapped from his home in Buffalo by two tramps, is held here today awaiting word from Buffalo. When taken off a train he was bareheaded, barefooted and his clothing was in shreds.

The boy says his father is Claude Taylor of Buffalo. He says the tramps met him near the Buffalo Union Station and held him in a box car. He closed the door. They then tied a handkerchief over his mouth. He ran from the men and took refuge in another car. In this car he came to New York.

KING'S VISIT REOPENS SUBJECT.
Old Question of German-English Relations is Again Topic of Discussion in Berlin.

BERLIN, Aug. 14.—[Exclusive Dispatch.] King Edward's visit to the Kaiser at Wilhelmshöhe occasions a general renewal of a discussion concerning the ever-present problem of German-English relations. The comment generally reflecting distinctly a more friendly and pacific feeling on the part of a majority of the public.

Tangible results, leading to new diplomatic developments, are not expected from the interview. The better part of responsible German opinion gives the English monarch a friendly greeting.

It evidently views his visit as an augury of improving relations even in those quarters where there is recentment against King Edward's "encircling" policy.

Pocket Bank and Fifty Cents Free.
Come to The Times Office today and you will be presented with a metal pocket savings bank of convenient size, and 50 cents in addition. It is the aim to give out \$20,000 and 2,000 of these splendid little banks, and the presentation is absolutely free.

PERSIA PRAYS FOR INTERVENTION OF THE POWERS

Turkish troops ready for the march.

TEHRAN (Persia) Aug. 14.—[Exclusive Dispatch.] Persia's fervent hope is that the powers will intervene to protect her from the depredations of Turkey.

The reopening of the old boundary trouble between Persia and Turkey might cause a change in the world's map. The dispute has existed for 150 years. Last year the Turks occupied a Persian village, but, on protest being made at Constantinople, withdrew. At that time two commissions were appointed to consider the matter. The standing army of Persia does not exceed over 24,000, though the number of men available for war purposes is 105,000. On the other hand, Turkey has 700,000 men and a war strength of nearly a million. The Turks are fine fighters and their forces are well organized, which is not true of the Persians.

A large Turkish force invaded the disputed territory ten days ago, and has been pressing forward, burning and pillaging as they go.

CABINET CONFERENCES.
UNSETTLED CONDITION ALARMS FINANCIERS.

Keen Interest Manifested in Series of Conferences Held at Sagamore Hill—Hope for Early Restoration of Normal Conditions.

NEW YORK, Aug. 14.—[Exclusive Dispatch.] Not only on the part of a series of conferences, it was learned today, were held yesterday afternoon and last night at Sagamore Hill between the President and members of his Cabinet. Though cloaked with the usual dignity and secrecy, and though great pains have been taken to convince the public that the financial and industrial situation was not the cause of the conference, it is significant that it was called at a time when the entire financial and industrial world is looking to the President for action.

"Business men all over the country are concerned over the general unsettled conditions and feel that unless the affairs of the nation are not soon restored to their normal balance, trouble will follow."

Those present at the Sagamore Hill conference were Secretary of State Root, Secretary of War Taft, and Postmaster-General Meyer. Those who participated declined later to reveal in other than general terms what had been discussed. Wall street awaited with much interest some definite statement as to what had taken place, because of the importance of the conference. Secretary Root had spent the afternoon in conference with some of the leading bankers of the country.

LIVELY GUESS-WORK.
The reports had it that the conference was held in the Wall street office of J. P. Morgan, and that the present monetary condition was canvassed with a view to enlightening the President. This, however, was emphatically denied in other than general terms. Secretary Root, Postmaster-General Meyer, and Wall street were not satisfied. There was an amplification of the rumor which told of Assistant Secretary of State Bacon accompanying Mr. Root as the personal representative of President Roosevelt.

A prominent financier sent word from his summer home to Wall street conditions that he had heard of the proposed resignation of Secretaries Root and Assistant Secretary Bacon, and that the President had accepted the resignation of Secretary Root, but the rumor went further than the denial.

Back of it all was the conviction that it was more than a coincidence, which accounted for the presence of Secretary Root of so many members of the Cabinet. The belief was expressed by conservative men that President Roosevelt had summoned his advisers to discuss administration measures.

Secretary Taft and Postmaster Meyer were first to arrive at Oyster Bay on the 12:19 p.m. train. Mr. Taft came to the city from Millbury, Mass., where he had been at the bedside of his aged mother.

TAFT EXPLAINS.
Before leaving the Manhattan Hotel for Oyster Bay, he said: "I am going to Sagamore Hill with the expectation of talking business with the President. It is necessary that there should be some consultation concerning the administration of the War Department because I shall be away in December."

His attention was called to the interview with John D. Rockefeller in which Rockefeller prophesied disaster to the country because of President Roosevelt's policy.

"That prediction of Mr. Rockefeller is awful, isn't it?" Then he added, "I must be excused from discussing anything that has reference to the administration. I'll say this much, however, it does seem strange that the administration which up to a very short time ago, when I left for the woods in Canada, was heralded around the world as the most prosperous in the history of the American republic, should now be on the brink of ruin."

Reference was made to that part of Rockefeller's interview in which he attacked, inferentially, the President and described Mr. Taft as a "safe and sane man."

"I can't help what Mr. Rockefeller says," Secretary Taft replied. "The President is under the best of advice. As far as the confidence of the American people in President Roosevelt is concerned, their support of his administration is the best answer. Any action taken by Mr. Roosevelt or his officials is not the result of any hour's deliberation, depend on that. In my journey to the Pacific Coast, I will make several speeches and the first of these will be delivered at Columbus, O. In that speech I intend to explain my views on the national situation. I also intend that I shall explain my position personally as thoroughly as I am able to describe it."

Messrs. Taft and Meyer conferred with President Roosevelt throughout the afternoon, leaving Oyster Bay

HOT AIR TRAIL IN TWO CONTINENTS.

Glittering and Preposterous Promises of Automobile Faker That Caught Victims—The Collapse of Promoter Berg's Many Visionary Operations.

(BY DIRECT WIRE TO THE TIMES.)

DETROIT, Aug. 14.—[Exclusive Dispatch.] A tale of hot air and "crooked money" is told in the career of Charles Berg, a promoter, whose two Detroit concerns, the Citizens' Transit Company, capitalized at \$500,000, and the Imperial Auto Company, capitalized at \$300,000, have come to grief, assisted by litigation brought by dissatisfied investors. Berg's leads through the great American cities—Detroit, Los Angeles, Chicago, Philadelphia, St. Louis, Cleveland, Pittsburgh and others into Toronto, and over to London and St. Petersburg.

Berg's plan is to organize companies to operate auto busses in cities and manufacture of a motor vehicle truck from patents in which he claims a controlling interest. Several machines have been built from his specifications, but so far as known, none of them has been operated with success and no dividends have ever reached the expectant investors.

Glittering prospectuses, however, continued to bring plenty of stock buyers. The experimental machines have proved too cumbersome, too heavy and too costly to operate. The total capitalization of Berg's known companies exceeds \$1,000,000, with a good proportion of it in the hands of stockholders. Berg's plan is to organize companies to operate auto busses in cities and manufacture of a motor vehicle truck from patents in which he claims a controlling interest. Several machines have been built from his specifications, but so far as known, none of them has been operated with success and no dividends have ever reached the expectant investors.

Berg came to Detroit in 1902, and organized the Imperial Automobile Company to manufacture automobiles for the Detroit market. He was successful in securing a large number of investors, and the company was capitalized at \$500,000. Berg was given \$100,000 of this for the exclusive right to the patent in Michigan. All the subsidiary companies were required to pay royalties to it.

TAFT BACK AT DESK.
Secretary of War Finds Much to Do Before He Can Begin Tour of the West.

WASHINGTON, Aug. 14.—[Exclusive Dispatch.] Secretary of War Taft, looking healthier than ever, and wearing the famous "Taft smile," the honorable Secretary of War returned today, from his vacation trip to Canada.

Mr. Taft had no time for pleasantries to the reporters gathered to greet him. Incidentally, however, he was interviewed by a man of war sufficient to terrify any ordinary man, was piled upon his desk a mountain of papers before Sunday, when he will start westward on a speaking tour.

Secretary Taft's purpose in making this trip is said to be to secure the sentiment of the western people on administration policies and also to learn if they desire him to continue them in the capacity of President.

TERRITORIAL FUMIGATION.
URGES CLEAN-UP IN NEW MEXICO.

ORMSBY M'WARG CONFERS WITH THE PRESIDENT.

Executive Expresses Great Confidence in Ability of Gov. Curry to Untwist Tangles and Instructs Assistant United States Attorney to Push Land Fraud Prosecutions.

DETROIT, Aug. 14.—[Exclusive Dispatch.] Ormsby M'Warg, assistant United States attorney, who has been conducting the Federal investigation of land frauds in New Mexico, had an extended conference with the President here today.

Mr. M'Warg declared that the President expressed great confidence in Gov. Curry, and his ability to straighten out the tangled affairs of the territory.

The general situation of chaos, caused by the operations of factions, which worked to their utmost to influence the territory, was gone over and the determination was made to have the new administration wipe the slate clean and guard carefully in the future against the repetition of such a condition.

The task which confronts Gov. Curry was declared to be a large one and he will not be expected to do everything at once, and will be given time to execute his plans for putting New Mexico Territory on a clean-government basis.

The land fraud prosecution was delisted, and the plans for bringing to justice a number of companies, syndicates and individuals who have violated the timber lands laws were laid out.

Assistant United States Attorney M'Warg was instructed to spare no pains, expense or effort in carrying these cases to a successful conclusion, leaving no loopholes for escape for the guilty. The prosecutions already under way were ordered pushed to the limit. It was intimated that while reasonable time would be allowed the administration in its task of housecleaning the Territory, no unreasonable or unnecessary delay would be tolerated.

Mr. M'Warg said that after he had a conference with Atty.-Gen. Bonaparte, in Washington, he expects to return to New Mexico, and will proceed in the name of the government against all who are alleged to have taken advantage of the territory in obtaining lands and timber.

APPOINTMENTS LEGATION AIDES.
OYSTER BAY, Aug. 14.—[Exclusive Dispatch.] The President today announced the following appointments: Legation of Honduras and Salvador; Arthur Hugh Frazier, to be Secretary of Legation to Paraguay and Uruguay; George T. Witsell, to be Secretary of Legation to Nicaragua and Costa Rica.

UNION HEADS ARE ENJOINED.
Permitted to Picket Liquor Dealer's Place.
Declared "Unfair" Because Employee Used Car.
His Butcher Threatened With Boycott.

ROCKEFELLER, SR., HARD TO LOCATE.
NEW YORK, Aug. 14.—[Exclusive Dispatch.] A sweeping injunction was issued yesterday by Judge Harrison restraining P. H. McCarron, D. A. Twiss, Richard Corcoran and other officers and members of the Carmen Union, the San Francisco Labor Council and the Building Trades Council from picketing or interfering with the business of James A. Aver, a liquor dealer, of No. 1301 Broadway street.
Aver applied on Monday for an injunction on the ground that, because an employee of his had ridden on a street car, the union had been "unfair," and had been picketing and threatening him and his business. Aver complained that his but-cher had been threatened with a boycott if he served him with meat.
Judge Harrison's injunction is a temporary one only, the defendants being ordered to appear in his court Friday morning, to show cause why the injunction should not be made permanent.

STRIKER ADMITS OUTRAGE.
Man Who Set Fire to Boulder, Colo., Depot Causing Dynamite Explosion, Confesses.
[BY DIRECT WIRE TO THE TIMES.] BOULDER (Colo.), Aug. 14.—[Exclusive Dispatch.] John W. Reeves, a brakeman employed by the Colorado Northwestern Railroad, confessed last night that he is responsible for the destruction by fire and dynamite of the Colorado and Southern station, which resulted in killing five and injuring fifty persons. After the confession a mob gathered to lynch Reeves, but he was spirited from jail and taken to Denver in a carriage.
Reeves confessed to the District Attorney, his assistant and several police officers. He said that he had set fire to a caboose belonging to the road he worked for because he was angered at the company for some imaginary wrong done him.
Reeves implicates three other men in his confession, but their names are being withheld.
Reeves said that during the discussion of the Colorado and Southern strike the suggestion was made that the crowd set fire to some of the company's property. Acting upon this suggestion, they went down to the yards and set fire to a caboose belonging to the company, and from this blaze the depot caught. The explosion of half a ton of dynamite in a powder house near by caused the loss of life and the destruction of property which followed.

JAFFA APPOINTED SECRETARY.
OSTER BAY, Aug. 14.—The President today appointed Nathan Jaffa, secretary of the Territory of New Mexico, vice J. W. Reynolds, resigned.

MAN WHO SET FIRE TO BOULDER, COLO., DEPOT CAUSING DYNAMITE EXPLOSION, CONFESSES.
[BY DIRECT WIRE TO THE TIMES.] BOULDER (Colo.), Aug. 14.—[Exclusive Dispatch.] John W. More Free Water Than You Ever Can Use

Water means money when coupled with good soil. There is unlimited water at Belle Vernon and the soil has no superior in this country. You can raise everything that grows. Berries, vegetables and poultry thrive and make you money. The income will meet your payments. Every modern convenience awaits you there. The streets are graded, the water is piped to your acre and it is free forever. Schools, churches, stores, telephones and electric light are close by and available. You are within 20 minutes of Sixth and Main, via two fast electric lines. You reach the shopping district quicker than many who live within the city limits. You enjoy pure air, uplifting scenery and escape the narrowing influences of a city lot.

\$650 Buys a Whole Acre
EASY PAYMENTS AND ONLY \$20 DOWN.

The finest highway on the coast passes through Belle Vernon. You are right on the Long Beach Boulevard, between the city and the sea, where values are on the move. When land gets too valuable to hold for a home, cut it up into lots and you can sell each lot for more than you paid for all.

But you must do it quickly as the acres are going. Come in for free ticket and go at once.

ABSOLUTE HANDICAP
RACE TO COMBINE.

Santa Barbara Challenge Cup Is Won by Mitchell's Yacht—Series of Nasty Accidents Lends Excitement. Harry Zier Falls Overboard.

(BY DIRECT WIRE TO THE TIMES.)

SANTA BARBARA, Aug. 14.—[Exclusive Dispatch.] Columbia, the absolute handicap race of the South Coast Yacht Club, the first event of the big regatta in the Santa Barbara Channel, this afternoon, Mitchell's I was second and Monsoon third.

Yacht owner. Start. Finish. Mitchell's I (Whitney) 2:00 4:25:11. Monsoon (Pugh) 2:00 4:40:14. Minerva (Spaulding) 2:00 5:01:06. Arrow (Hart) 2:00 5:08:30. Enchantress (Pugh) 2:00 5:10:30.

It was a beautiful race. A fourteen-mile breeze that kicked up white caps drove the bunch of fast yachts in one of the most brilliant events in the history of the club. Although it was somewhat in the nature of Monsoon weather, Columbia showed her clean, set of sails. While Mitchell's I, due not only to the splendid handling of Fritz Whitney, but also to an error of judgment of the Monsoon's skipper on the first leg of the second time around the triangular course, who persisted in using a balloon, as a reaching jib, had the best of the race for second place at that moment.

Accidents happening to all three sloops were pretty evenly distributed, so that there was really nothing to kick about in the long run.

YAWLS ARE SPECTATORS. The yawls were out of it from the first leg, Minerva leading the trio around both laps of the fifteen-mile course; Arrow making a rather bad second, and Enchantress hopelessly astern. Their part in the game was uneventful, and aside from their presence on the card, all they had to do was to watch the big ones race.

The only really serious feature in the accident line happened to Mitchell's I, when, in the act of rounding the first mark, the yacht, under the command of Harry Zier, a well-known Pasadena society man, who was helping flatten down the jib sheets, slipped overboard. There was a quick recovery, and the loss of some precious time, and Harry will rejoin the whirl in Pasadena alive and well.

The race was to start at 1:30 o'clock, but was not toward 2 o'clock when Judge Stewart Laughlin, chairman of the Regatta Committee, and Secretary A. Lester Best pushed off in the launch Vamoore, leaving Starter and Timer Wesley D. Sylvester ashore to start the race. The preliminary gun sounded at 1:55, and the yachts were off at 2 o'clock.

Enchantress crossed the line first, with Mitchell's and Minerva forming a compact cloud of canvas, so close were they, that Monsoon and Arrow followed in the order named, and the whole fleet was bunched beautifully. The race to the first mark, southeast by one-half east, was a close one, and like the tail of a kite, Enchantress completely reversing her position at the start.

At the first mark Columbia turned first, with Monsoon second and Mitchell third. That was where the sloops parted with the yawls. Mitchell held a starboard tack, looking for a weather berth, while her rivals swung onto the port tack. Columbia came about on the starboard tack, and the strait and the second mark, while Monsoon continued inshore. It seemed a lack of judgment on her part, for Columbia was making good weather of it to windward.

ACCIDENTS BEGIN. Coming back on the port tack to make the second turn, things began to happen. Columbia's balloon, set in stop, broke a drift to the right, and she was in a position to stay and sheeling and sailed like a flag of distress, masthead high. Luffing twice and finally changing tack, she sent a man aloft, who cut the offending canvas. The launch Lady Charlotte picked up the man, but too late.

Monsoon's head sail, Columbia made shift with her spinnaker. All this time Monsoon was coming up in reach, and turned the star's first, breaking out her balloon, immediately. Before she reached the turn, however, she dropped the spinnaker, and the launch picked up the man who had fallen overboard. The launch also was lost, the skipper evidently figuring on making a wing and wing under the mark, but the wind had hauled due west from west by south, and he shifted the big sail forward, blanketing his balloons.

Columbia, despite her accident, turned right upon the heels of Monsoon, with Mitchell a few seconds to the rear. Columbia's big spinnaker was by this time drawing as well as a balloon, and she rapidly ran up to Monsoon, Mitchell and Enchantress following her. The launch also was lost, the skipper evidently figuring on making a wing and wing under the mark, but the wind had hauled due west from west by south, and he shifted the big sail forward, blanketing his balloons.

Monsoon, turning second, was close astern and in the weather berth, but Monsoon attempted to make a reaching jib of her balloon and it pulled her head to leeward.

Then ensued a luffing match, Mitchell making up for lost time. Finally, Columbia, with a foxy move, threw her head up sharply and shot across Monsoon's bows, grabbing the weather berth from her in a trice. A brief luffing contest failed to lessen Columbia's lead.

BEAT TO WINDWARD. Then, from this on to the first mark, the reach kept the boats in the same relative positions. Columbia turned into the windward beat first, with Monsoon close behind, and Mitchell kept on the starboard tack and then came about, preserving a berth well to windward and coming fast. Monsoon didn't seem to point up as well as usual, and, in fact, Columbia appeared to make weatherward in better shape.

Both yachts went well in before changing tack, Monsoon profiting by her loss on the first lap by coming about sooner. Columbia turned first and beat Monsoon at her own game, outpacing her rapidly in the reach for the windward mark.

Mitchell and Monsoon, approaching each other on different tacks of a triangle, looked like quick work or a bump, when Mitchell turned on down heel and swung on the starboard tack with Monsoon to starboard and somewhat astern. From there it was a pretty race to the windward mark between these two. Columbia, by this time, was more than a quarter-mile ahead.

They turned the mark and sped for home. Disdaining even her spinnaker as a balloon, Mitchell turned next, with Monsoon, which had gone to leeward too far in the reach, and astern. Both Mitchell's and Monsoon broke out balloons as they turned the windward mark, and the race home was full of excitement so far as the last named two were concerned. For Columbia had finished, moored, and had canvas stowed before her worsted rivals crossed the finish line. Minerva came in a belated fourth, and Arrow had the water to herself, when she arrived. Enchantress's time was not taken.

Columbia, although she lost to Monsoon, the ocean race up the coast, really is the first victor of the regatta. To go to the Santa Barbara Yacht Club, which also had a trick at the stick. H. A. Behrens sailed Monsoon; Capt. Haye handled Arrow; Capt. Haye handled Arrow; Capt. Haye handled Arrow.

To go to the Santa Barbara Yacht Club, which also had a trick at the stick. H. A. Behrens sailed Monsoon; Capt. Haye handled Arrow; Capt. Haye handled Arrow.

Norman Brooke and A. F. Wilding, winners of the Davis lawn tennis cup. Together they also captured the doubles championship of England, and Brooke won the singles.

ENGLISH LOSE
TENNIS HONORS.

America and Australasia in Combative Mood.

Brookes Is First Left-handed Player to Win.

May Sutton Cleaned Up All Women Champions.

Foreign tennis players far outnumbered the previous entries in the recent English championship tournament at Wimbledon, in which Miss May Sutton won the women's singles for the second time. Only one of the English championships remained at home, and that was a minor one. The English women's doubles team defeated the Kiln sisters from Australia, but the challengers were but 13 and 14 years of age, and the only foreigners in this event.

Australasia shared the honors with America, this year, in the tournament. The men's singles went to Norman E. Brookes of Australia. He is the first left-handed player to be successful in the annual all-English championship, and furthermore is the first non-Englishman to win the championship in the men's singles. With his partner, Anthony E. Wilding, he captured the doubles, and from Americans instead of Englishmen. The defenders in the finals were Karl Behr and Beala C. Wright.

Miss May Sutton was especially eager to win, because in 1905, when she defeated Miss Douglas, her victory was ascribed by some to the fact that her opponent had a sprained wrist. Miss Sutton wanted a clean-cut and decisive victory, and there was no doubt as to the superiority of the California girl after the tournament this year.

Directly after her arrival in England, this year, Miss Sutton started her season's campaign by defeating the champion of the world, Miss M. Wilson, in the women's singles, and Miss Sutton defeated her handily in the finals. Luck was with her here, however, as she was prevented from playing by a sprained ankle, and Mrs. Chambers was said to be suffering from her old wrist complaint. In this tournament, Miss Sutton also won the mixed doubles.

In the all-England tournament, which has been the most successful in the singles. Here, again, it appeared that Mrs. Chambers was off her usual game, which dimmed the brilliancy of Miss Sutton's victory somewhat.

This victory she followed by winning the championship at Newport, in the Welsh championship, which being her third successive victory there, she acquired permanent possession of the championship trophy she donated Miss C. M. Wilson on the finals.

All the way through the English tournaments of the year, foreign players have been prominent, and in the boating season, the British have been subjected to many disappointments. They are beginning to see the effects of the hot weather, and the superiority of one or two players over the younger generation, who cannot hope to do more than win in the minor contests.

As an example of the dominance of the few experts over the rest of the players, it need only be pointed out how the Doherty held the doubles championship from 1907 to 1902, and after losing it for a year only, held it again in 1903. The Dohertys have held the singles trophy since 1897, except for one year, 1901, and in 1902 the other of the brothers took it and has retained it ever since.

Another cause of the decline of the game in England is professionalization, which has crept in to such an extent that one form of tennis outlives practically controls the game. This tends to kill the standard of the pastime, but the victory of the foreigners the best means of restoring it to its greatness of a half dozen years ago.

CROWN PRINCE WINS. HANDY WITH TENNIS RACQUET. HAMBURG, Aug. 14.—[Exclusive Dispatch.] In the Heilfendemann lawn tennis tournament the German Crown Prince, in the men's singles handicap, defeated the well-known Berlin player, Herr Von Mueller, 6-5, 6-3, 6-5.

In the men's doubles he and his partner, who played under the pseudonym of Otto, against Herr Boeling and Herr Othelbauer, again were victorious, beating their opponents 6-2, 4-6, 6-2.

SHORTSTOP CORCORAN, who was here last winter with the New York Giants, has signed as player and captain of the Uniontown, Pa., team.

President Hermann of the Cincinnati team has filed charges with President Fullam of the National League against Danny Shay, for using profane language to spectators in a game at Cincinnati.

CHARLEY HALL, the Ventura boy pitcher, who was taken by the Cincinnati National League team, with flourish, trumpets has not made good this year on account of an injury to his head, which he received last year in a swimming pool. He has gone back so far that he has been sold outright to the Columbus team of the American Association.

TURNER'S JAW BROKEN.

Goes Down Repeatedly Under Attacks of Clifford and Second Throw Up Sponges.

(BY DIRECT WIRE TO THE TIMES.) SAN DIEGO, Aug. 14.—[Exclusive Dispatch.] Jack Clifford broke Rufe Turner's jaw in the eleventh round of the fiercest fight ever fought under the auspices of the San Diego Athletic Club last night. In the last half of the round Clifford caught Turner to a corner, landing on his face with right and left swings. The negro went down as though shot, but was on his feet before the count. He roused the white man for ten seconds, but before the round was over his seconds threw in the sponge and called for a doctor.

Turner only had the better of two rounds, the seventh and eighth. Clifford forced the fighting from the first and kept the negro on the defensive by attacks on the head and body. Turner landed on Clifford's head with a terrific left swing, "at was unable to do so effectively or often as he wished." Turner took great punishment, being knocked down and through the ropes repeatedly.

THEIR REPERTOIRE. After Tramping Four Hundred Miles Columbia Park Boys Give Farewell Entertainment Tonight.

When the forty-five boys of the Columbia Park Boys' Club of San Francisco return tomorrow to their homes, it will be with the most pleasant recollections of Los Angeles, for during the week they have been here they have had a royal good time and say so emphatically. That they appreciate a time after a tramp of 400 miles goes without saying.

This afternoon the baseball team of the club will meet at the playground team on the grounds of the Harvard school and the band and drum corps will parade through the city streets and the evening will give an outdoor concert in front of the Auditorium Four "shows" have already been given by the Columbia boys since they "struck" Los Angeles and tonight the last one will be given in the Auditorium under the management of the local public school.

The programme includes selections by the band of forty pieces, aerial gymnastics by the pyramid team of six boys, and a musical play, "The Rival Professors," a detective story. On the trail, "The Mystery and Musical Act," the Three Tiny Fritzes, a number of tumbling and entertaining acts and a playlet entitled "The Last Rehearsal."

Altogether there will be variety, entertainment and interest to be found at this last performance by the Columbia Park Boys tonight.

Balls and Strikes. Charley Hall, the Ventura boy pitcher, who was taken by the Cincinnati National League team, with flourish, trumpets has not made good this year on account of an injury to his head, which he received last year in a swimming pool. He has gone back so far that he has been sold outright to the Columbus team of the American Association.

FIVE GOOD ONES
IN THE SEVENTH.

CRACK SHOTS PREPARE FOR THE BIG NATIONAL SHOOT.

Final Tests of Marksmanship to Be Held Today at Camp Roblar. Twenty Men Qualify in Preliminary Rounds for the Events—Few More Days of Practice.

Rifle sharpshooters of the Seventh Regiment, National Guard, in camp with crack army shots from all over the State, are spending this week at Camp Roblar, for just this point, anchored in a long thin line, were the objects of all the bustle and throng of the yachts.

On board the "cruisers" were bustling about, overhauling running gear, tanning here, easing off there and adding a finishing touch to the minor detail, all of which was watched with careful eye by the skipper of each yacht.

Columbia, her low-lying hull sleek and shiny with a new dress of black, bowed a measured acknowledgment of the judge's salute, and then, with a graceful and attractive, and the pleasure of the race, was over.

The five successful members of the Seventh Regiment were W. B. Couls, Los Angeles; J. J. Sellinger, Anaheim; J. A. Lamb, Long Beach; H. O. Higgins and J. M. Loop, San Diego.

Following the results of the preliminary trials:

Name. Regiment. C. Score. F. R. Newland. 7. B. 270. F. R. Butler. 7. C. 245. J. A. Lamb. 7. D. 218. N. Jensen. 7. D. 213. A. M. McKillop. 7. C. 231. J. J. Sellinger. 7. B. 292. H. S. Sanborn. 7. D. 292. R. J. Johnson. 7. D. 292. H. J. Lewis. 7. H. 288. E. Evans. 7. A. 285. J. M. Loop. 7. B. 285. J. A. O'Rourke. 7. C. 271. A. O. Harbise. 7. C. 262.

Capt. A. J. Copp of Co. A and Lieut. O. S. Lowley of the first battalion, Seventh Regiment, will go East with the State team. Lieut. Lowley, who is head physical director of the High Schools of the city, will look up east-boroughs of conducting gymnastics, city playgrounds, medical colleges and hospitals. He will return about September 15.

FAST DASH BY AUTO. THE automobile record from this city to Bakersfield was lowered an hour and a half yesterday by Harry Hanshue in a two-cylinder Reo, in spite of road conditions which are described as being as bad as during the flood time of last spring. Hanshue made the run from city to city in seven hours and eighteen minutes.

Hanshue left the Alexandria Hotel in Los Angeles yesterday morning at 5 o'clock, and reached Bakersfield at 12:18. He covered the distance to San Fernando in forty-seven minutes, and reached the Newhall cut in one hour and a quarter. The rest of the log for the trip reads as follows: Elizabeth Lake, 7:35; Neehach, 8:45; Row's Station, 10:35; Bakersfield, 12:15.

Hanshue reports the roads as being fearful, and says that they are worse if anything now than when he went over them last week. The Pope Hartford-Oldsmobile race in the spring. He was compelled to make sixty-seven fords in his progress up San Francisco Canyon, and says that he was exceedingly lucky in getting off with only one puncture.

The record formerly stood at 8 hours and thirty-seven minutes. This record is generally accepted, although it was not attested by persons at both ends of the run, as the present record is. The time was made by a Ford car in 1904, and was timed by Fred Stamm, who was a passenger in the car.

The Reo used in the record run was a regular stock car. August Oberlein acted as mechanic.

BIG CUT MADE IN
INTER-CITY RECORD.

THE automobile record from this city to Bakersfield was lowered an hour and a half yesterday by Harry Hanshue in a two-cylinder Reo, in spite of road conditions which are described as being as bad as during the flood time of last spring. Hanshue made the run from city to city in seven hours and eighteen minutes.

MANY TROPHIES FOR FINE DOGS.

With but three more days in which to decide, the dog owners of Southern California are waking up to the importance of entering their animals in the Venice show, and Manager Fred Herr reports that the list is filling rapidly. He expects at least 150 dogs, and the large number of cups offered should surely attract this number. The entry list will close on Saturday, which will be almost two weeks before the show opens. There will be four different judges, and the owners will thus be assured that no favoritism will be shown.

The Boston terriers will probably have the largest list of representatives, but the other breeds will be well represented, the bulldogs alone having fifteen entries already. A number of fine field dogs will be shown, and it is possible that Will Tevis will send some of his English setters down from Bakersfield.

The list of awards is a long one, and the following are some of the principal trophies:

W. J. Doran, the president's cup, for the best dog of any breed in the show, either sex.

Gen. M. H. Sherman, cup for the best dog (either sex) owned and shown by a lady.

Maier Company, cup for best exhibit of dogs owned and shown by an exhibitor.

Venice of America Kennel Club, cash prize of \$25 to handler entering and handling the greatest number of dogs.

St. Bernard—Venice of America Kennel Club offers cup for the best dog or bitch.

Great Danes—Brock & Feagan, cup for best dog or bitch.

Russian Wolf Hounds—Venice of America Kennel Club, cup for best dog or bitch.

American Fox Hounds—Hoogee Co., cup for largest and best exhibit. L. C. Brand, cup for the best dog or bitch.

English Fox Hounds—Epps, Ran-

dolph, cup for the best dog or bitch.

Pointers—Venice of America Kennel Club, cup for the best dog or bitch.

English Setters—Mrs. W. Arthur Phillips, cup for the best dog or bitch.

Irish Setters—Kenneth Preuss, cup for the best dog or bitch.

Cocker Spaniels—California Cocker Club, club medal for best Cocker in the show; California Cocker Club offers club medal for best of opposite sex; Cheney Company, cup for the best dog or bitch other than black; Metropolitan cup for best Cocker dog or bitch (black).

Dachshunds—Venice of America Kennel Club cup for best dog; E. P. Clark, cup for best bitch.

Collies—Venice of America Kennel Club, cup for best dog or bitch in puppy or novice class; cup for best bitch in novice class; Times cup for best dog in limit class; Hugh McFarland, cup for best bitch in limit class; Alexandria Hotel, cup for best dog in show; R. A. Rowan, cup for best dog in show; Nordlinger cup for best dog in toy class; Venice of America Kennel Club, cup for best bitch in toy class.

Fox terriers—(smooth-haired)—Ven-

ice of America Kennel Club, cup for best dog; Venice of America Kennel Club, cup for best dog or bitch; Earnest Kennedy, cup for best dog or bitch in novice class; Venice of America Kennel Club, cup for best dog or bitch in limit class; Mrs. M. S. Severance, cup for best dog; Charles K. Harley, cup for best bitch.

Scottish terriers—Venice of America Kennel Club, cup for best dog or bitch.

Japanese spaniels—J. W. Brooks, cup for best dog; Venice of America Kennel Club, cup for best bitch.

English toy spaniels—Venice of America Kennel Club, cup for best dog or bitch, tri-color; John Liewellyn, cup for best dog, orange and white; Venice of America Kennel Club, cup for best bitch, orange and white; Venice of America Kennel Club, cup for best dog or bitch, red; Henry Berry, cup for best dog or bitch, black and tan.

Yorkshire terriers—G. M. Herr offers cup for best dog; Venice of America Kennel Club, cup for best bitch.

THE CITY IN BRIEF

NEWS AND BUSINESS.

Depart on Bad Mission.

Mr. and Mrs. W. F. Nordholt have been called North on account of the death of Mrs. Nordholt's father, Mr. M. Gately of San Francisco. The deceased was a pioneer of California, and was widely known in the central portion of the State.

Navy Secretary Invited.

The Chamber of Commerce has extended an invitation to Secretary of the Navy Victor H. Metcalf, Admiral Capps and Admiral Cowles, who have been inspecting government property in the northern portion of the State, to visit this city.

Newspaper Beaten.

Peter Peterson, a newspaper, 15 years old, sustained a broken nose and a battered countenance in a fight in Express alley last evening. He was taken to the Receiving Hospital. He declares he will never fight again today for his assailant, who were much older than himself.

Iron Works Men Fight.

George Baker, 30 years old, was arrested for battery last night upon a warrant sworn to by a Russian employee of the Llewellyn Iron Works. Baker is employed by the same company, and attempted to make the Russian leave his job. It is said, in a fight that ensued the latter was badly beaten.

Uncle Sam's Building.

The foundations of the Federal building, now being erected at Spring, Temple and Main streets, will be completed within a month. The first shipment of structural steel is expected in the city within twenty days. Delay in finishing the foundation has been caused mainly by the necessity of sending samples from each lot of cement to Washington for testing. The contractors expect to be at work on the steel framework by the middle of September.

Kicks Her Mother?

Nellie Aird, 17 years old, was arrested last night at Long Beach for alleged battery, on a warrant sworn to by her mother, Mrs. Della Aird. Mrs. Aird declared that her daughter beat her in the face with her fists and then kicked her. After the altercation, Nellie ran away from home. For three days the police have been looking for her. When Mrs. Aird appeared before the Prosecuting Attorney, she exhibited a black eye and other bruises which she asserted were inflicted by her daughter. Unable to furnish bail, the girl was detained at the City Jail last night.

BREVITIES.

Why pay \$3.50 to \$5.00 for eyeglasses and spectacles? We sell the Best All-Periscope crystal lenses, in a ten-year gold-rimmed frame, for only \$1.50. We make a thorough examination and guarantee satisfaction. Two graduates, State registered opticians in attendance; consultation free. Clark's Optical Parlors, No. 251 S. Spring st., opposite Heilmann Bldg.

J. W. Frey has moved his stock of watches, glasses, time and sundries to his warehouse, corner Los Angeles and Twelfth streets, where can be seen the largest assortment of black and brass trapezoidal trapezoidal to be found in the United States.

Ladies—You never have to pay more than \$2 for the best shoes made, and the men need never pay over \$2.50. I sell \$2.50 to \$3 sample shoes at these prices. I can fit all feet. I am located on the second floor of 414 S. Broadway. Visit my store and be convinced. Sample Shoe Man Stark.

Save money on pictures during the sale of Korber Parker's stock at the 2. F. Kanst. Art Co., 642 S. Spring. Two dollars' worth for one.

Attend the auction sale this morning at 10 o'clock of elegant furniture, 1142 E. Figueroa street.

Pura D. Bonoff, furrier, 212 S. Broadway, 1214 Broadway for the best vacation.

OLD, OLD REMNANTS.

BRINGS RELICS OF LONG AGO.

RARE FINDS ARE TAKEN FROM SAN NICHOLAS.

Curator of the Southwest Museum Returns from Search for Remains of Ancient People on Island—Skeletal Remains Discovered in Curious Coffin. Body Doubled in Quiver Position.

Bringing numerous rare finds, Dr. P. M. Palmer, curator of the Southwest Museum, returned from the Channel Islands yesterday. In his newly-acquired collection of prehistoric things which were mostly found on San Nicolas Island. There are sixteen good-sized boxes of the finds, and they weigh about 800 pounds.

In this collection there are a number of articles which so far as known have no duplicates, and the purpose for which they were used can only be conjectured. Dr. Palmer is most pleased with a coffin and contents, which are pronounced unique. The corpse, that of an adult man, was doubled up after death, the knees drawn to the chin, and it is not improbable that the flesh was scraped from the bones before burial. The coffin consists of thin, rudely fashioned wooden slabs, which are held together by leather thongings run through holes drilled in the wood. A number of the man's implements and ornaments were found in the coffin; several long slender, highly polished, sharp-pointed bone spears, some cylindrical soapstone beads, several stone knives and a mortar. Most of these had been "killed"; that is, broken so that they would be of no use to the finder, but they can be so cemented as to appear in their pristine shape.

One knife(?) is of purely Alaskan form, and was probably for ceremonial use only. It is of soapstone, about eight inches long, a quarter of an inch thick, and is double-edged and highly polished. The edges, however, are very finely and delicately serrated, so delicately that they would be broken by use. Other heretofore unknown objects are several very heavy, highly polished bone clubs, most likely used for killing seals, and a thin stone scimitar-shaped war club.

Among the many ornaments and objects of worship found is a lifelike carving of a whale about six inches in length. It is of variegated serpentine and highly polished. Then there is some prohibitive fellow's "medicine," inclosed in two abalone shells. One shell fits just within the other and is held in place by a firmly-pressed and hardened asphaltum cement. The object inclosed is undoubtedly of stone. "Will you separate the shells to see what it really is?" the doctor was asked. "No, sir," he replied. "Whatever it

between them was sacred to the owner. See how carefully he has pitched even the little trifles in the shells to exclude the light. So long as I have anything to say in the matter, the find shall remain just as it is."

There are a number of skulls in the collection, and one of them is that of a giant, as it measures twenty-four and a half inches in circumference. When one considers it, this is abnormally large. The skull of a man who was a seven-foot giant, and who also had measures only twenty-three inches—hair, skin, flesh and all.

It would require about a column of The Times to enumerate all the articles in this San Clemente collection. The Southwest Society is highly pleased with the addition to its museum. Dr. Palmer will have some things made to properly display the objects.

Plague Which Annually Devastates Large Number of Florida Orchards Makes Its Appearance in Southern California—Rigid Quarantine Laws Demanded.

The Citrus Protective League has issued a circular letter verifying the report that the degraded Florida White Fly has made its appearance at Bakersfield, and calling upon all people having the welfare of the California fruit industry at heart to work for the most stringent quarantine regulation to prevent the spread of the pest. As yet the only traces of the plague have been found in the trees of use. Tevis estate at Bakersfield and it is believed that energetic measures will wipe out the threatening danger if steps are taken at once.

Two years ago the Florida White Fly made its appearance at Marysville, but prompt action on the part of the authorities exterminated the pest and the danger was passed. Evidence secured by experts who have been making investigations in the Bakersfield neighborhood leads to the belief that the infection was brought there at the same time that it was carried to Marysville. Experts employed by the Citrus Protective League report that their investigations have disclosed the fact that, upon the Tevis estate, it is to be found nearly every food plant of the fly. As yet the insects are confined to the orchards, however, and there is a hope that they may be destroyed before they have gotten a footing on other parts of the estate. As yet the fly has not appeared anywhere but on the Tevis property.

The Citrus Protective League urges that an exhaustive search be made in every county to make sure that the pest has not gained a foothold. It is urged that every county have passed a quarantine ordinance against Florida trees and that the greatest care be exercised to prevent the importation of a pest that might, if once it gained a foothold, raise havoc with the orange industry in California.

There is some difference of opinion among authorities as to the danger of the pest spreading over Southern California. Prof. C. W. Woodworth of Berkeley believes that the danger is great, while Horticultural Commissioner Pease falls to see anything to cause great worry in the present state of affairs.

The practical fruit-growers are likely to let the authorities argue it out, however, while they themselves take measures which will insure the eradication of the pest if such a thing be possible. There is no difference of opinion as to what the result would be if the pest were to gain a foothold in the orchards of Southern California and a determined effort will be made by the Citrus Protective League to induce the authorities to take the matter up.

TWO VICTIMS IN WEEK.

Police Think Degenerate Haunts Railroad Yards at Night to Murder Unwary.

Is some criminal degenerate haunting the railroad yards for the purpose of waylaying victims and murderously assaulting and robbing them? The detectives are disposed to accept this theory concerning two mysterious murders which have been committed within the past week. Both of the victims were assaulted from behind, struck on the head with some blunt instrument and left dying, after their pockets had been rifled.

Epitacio Nunes, aged 24, who was found lying unconscious near the sidewalk at East Fourth street and Santa Fe avenue, Tuesday night died early yesterday morning at the Receiving Hospital. He had been assaulted with a sandbag or slungshot and his skull fractured in three places. Despite the efforts of the hospital surgeons, he did not regain consciousness and when died, every hope that the detectives had of getting a description of his assailant was gone. His pockets had been rifled and his watch stolen. The body was identified by relatives who called at the Police Station to report the fact that he had not returned home.

The method in which this crime was committed was the same as that used in the murder of Samuel Nelson, an old negro teamster, whose skull was crushed by an unknown assassin with a large stone near the Salt Lake depot. Nelson was also robbed. He never recovered consciousness.

Half a dozen detectives are working on the two cases, but they admit that they have not the slightest clue to the identity of the murderer. Only the fact that the motive and method were identical in both cases indicates that both crimes were committed by the same person.

BIRTHS, DEATHS, MARRIAGES, DIVORCE.

VIGNOLO, Wednesday, August 14, Ambrogio Vignolo, a native of Italy, aged 79 years. Funeral notice later. (San Francisco papers.)

NUNEZ, in this city, August 14, Epitacio Nunes, aged 24, who was found lying unconscious near the sidewalk at East Fourth street and Santa Fe avenue, Tuesday night died early yesterday morning at the Receiving Hospital. He had been assaulted with a sandbag or slungshot and his skull fractured in three places. Despite the efforts of the hospital surgeons, he did not regain consciousness and when died, every hope that the detectives had of getting a description of his assailant was gone. His pockets had been rifled and his watch stolen. The body was identified by relatives who called at the Police Station to report the fact that he had not returned home.

MILLIONS IN BOND ISSUE.

Harriman Reaches This City
in Special Today.

Will Consider Refunding of
Old Securities.

Problems of Subway, Union
Depot Ready.

Official announcement was made last
night that E. H. Harriman, president
of the Southern Pacific, will reach this
city today in his private car attached
to a special over the Salt Lake Route.
Vice President J. Ross Clark and Traf-

MINT JULEP IN DISGRACE NOW.

GEORGIA'S TO BE "DRY" AND HER
COLONELS FLEE.

Come to Los Angeles, Where South-
ern Gentleman May Ask Comrade
to Have Drink, Sub, Without Break-
ing Law, Sub—Liquor Capitalists
Making Inquiry.

The advance guard of the Georgia
invasion has crossed the California
border. Colonel and "cracker" have

MARY HARRIMAN.

It is reported that one of the two daughters of E. H. Harriman is to marry
William Straight, our Consul at Mukden. The engagement is said to have
followed the visit of the Harrimans to the Far East. Miss Harriman is full
of spirits and is one of the well-known sportswomen of New York. She drives
her horses at the horse shows and is an active member of the coaching club
of women which holds a parade every spring. She is expected to join her
father at his new camping resort in Oregon after his visit to Los Angeles.

Manager Wann, of the Salt Lake, is with Mr. Harriman in the special.
The visit of Mr. Harriman to Los Angeles is an event in local railroad
circles. The last time he was here de-
veloped the plans for the great sub-
way for the Los Angeles Pacific rail-
way and the big building proposed for
Fourth and Hill streets. It is stated
that upon his present visit Mr. Harri-
man will go thoroughly into the prob-
lems which have developed in regard
to this subway scheme as well as into
many others affecting his multifarious
interests in Los Angeles.

Holding as he does such great inter-
ests in the Los Angeles Pacific, Pacific
Electric and Inter-urban electric roads,
as well as in the vast property of the
Southern Pacific located in Los An-
geles, it will not be surprising that he
will be a busy man while here, in spite
of his declaration while on the way
that his trip was purely a trip for
pleasure.

GREAT BOND ISSUE.
Probably the most important matter
which Mr. Harriman will consider
while in Los Angeles is one of finance.
It is known that Mr. Harriman favors
the refunding of certain outstanding
bonds and placing a big additional loan
for the Los Angeles Pacific, and to
accomplish this it is understood that
while in Los Angeles Mr. Harriman
will enter heartily into the plans for
floating a new bond issue for \$20,000,000.
With this new bond issue not only
will the old bonds be retired but a
further loan will be raised in order that
the work on the proposed subway for
the Los Angeles-Pacific will be pushed
energically. National financiers who
are more liberal-minded and less likely
to be stampeded by factors and fanat-
ics. I do not know that I shall engage
in the liquor business here; I have only
a small part of my investments in
liquor in Georgia. But the new law
will kill the State, financially and com-
mercially, and I am going to get out
before my property is confiscated and
I am Georgia's liquor interests here
wrote to a city official this week, ask-
ing details as to the liquor business.

This defection of the Georgia colonels
has been welcomed with delight by the
hangers-on of the Royal Arch here.
Each is fighting on where he is to get
his bit by securing a location or a con-
cession for the newcomers. Yesterday
it was proposed at the City Hall that
the liquor interests here circulate an
initiative petition to extend the liquor
zone and increase the number of salo-
ons to 250.

A MEMORABLE TRIP.
Mr. Harriman made his first memora-
ble trip over the lines of the Union
Pacific for the purpose of deciding
whether the property was worth re-
building about ten years ago. His re-
port that such rebuilding was well
worth the while and his demand upon
his New York associates for millions
of dollars for improvements and new
equipment facilities were met with
skepticism and resistance. He insisted
that his associates comply with his
demand, however, and they finally did
so, with the result that the rehabili-
tated road shortly afterward reaped the
full benefit of its investment in the
first flood tide of the West's great
prosperity.

Harriman's name, however, did not
appear as associated with the Union
Pacific management until an official
notice of the names of the new direc-
tors was made towards the close of
1907, when his name was mentioned at
the end of a long list of board mem-
bers. It generally is believed that
Otto H. Kahn, of Kuhn, Loeb & Co.,
instrumental in placing Mr. Harri-
man on the road's directorate and did

STOLE A LOT AND SOLD IT.

Most Brazen of Frauds in
Local Real Estate.

Trick Accomplished by the
Forgery of Deed.

George Peterson's Property
Parted from Him.

The man who stole a meeting house
and the expert ruster who removed
Sancho Panza's donkey from under
him while he was sleeping in the saddle
were accomplished here, but they were
not in the same class with the cunning
rogue who stole George A. Peterson's
city lot, sold it and got away with the
lot.

George A. Peterson bought lot 13 in
block 23, of the Park tract, in the city
of Los Angeles in 1902, and then went
to San Francisco and left it to absorb
unearned increment and pile up wealth
for him while he slept. He had no fear
of thieves breaking in and stealing
the property and he was sure that the
thief who stole it would not impair its
value.

On September 5, 1905, a small, sal-
low, man with a faded mustache, who
looked like a restaurant waiter, applied
to the Title Insurance and Trust Com-
pany for an unlimited certificate of title
to Peterson's lot, representing himself to
be George A. Peterson, and giving a San
Pedro address. Three days later he
wrote to the company, asking for the
lot for which the amount of delinquent
taxes due on the property, and stating
that he would pay it to clear the title.
The letter was signed with the name of
George A. Peterson.

The man with the faded mustache
paid the taxes and received a certificate
showing the title to be vested in George
A. Peterson, free from incumbrances.
Then he went to Justice, Moss & Co.,
No. 415 Fay building, showed the cer-
tificate, and asked for the deed to the
property, and desired to sell it, and
gave them an option on it at \$100.
Justice, Moss & Co. advertised the
lot for sale in The Times, and found
purchasers in Louis and Elizabeth
Kleinpeter, who paid \$100.

On September 10, 1905, a deed of the
property to the Kleinpeters, signed
"George A. Peterson," and acknowl-
edged before Andrew R. Castro on Sep-
tember 20, 1905, was delivered in the
title office to the Kleinpeters, and was
recorded in the Title Insurance and Trust
Company by Ralph Moss. The escrow
instructions were signed by Ralph Moss,
and authorized the payment of \$400 of the
purchase price to Justice, Moss & Co.
as commission. The money was paid
to the bank, and a check for \$100 was
drawn to the order of George A. Peterson,
and delivered to Ralph Moss.

The check, indorsed by the pretense
of Peterson and by Moss, was cashed
at the Farmers and Merchants Bank,
indicating that Peterson was unknown
at the bank, and that Mr. Moss iden-
tified him. Mr. Moss now has no recollection
of having done so. He is an expert
in the detection of frauds, and he is an
expert in the detection of frauds, and he

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

Chief Lips and the members of the Fire Commission are inclined favorably toward the application of the City Gas Company for a permit to build their plant at Eleventh street and Santa Fe avenue.

Health inspectors secured the arrest of a Jap restaurant keeper yesterday who has evaded them for a week by masquerading under a Chinese name. Judge Bordwell yesterday handed down a decision in the "third rail" case, confirming the city in its claim that the Pacific Electric Company may not lay the rail, nor run its cars where it has no franchise of its own, without permission from the city government.

Frank Jones was placed on trial for breaking the arm of a neighbor with a tin mill, as was alleged. Justice Summerfield, at present sitting in the Police Court, has acquired an automobile, and offenders against the speed ordinance are throwing themselves upon his mercy. John Lewis, charged with having committed many robberies in the Westlake district, was arraigned in the Police Court yesterday and held for trial in a higher tribunal.

AT THE CITY HALL.
BOARD FAVORS
NEW COMPANY.

MAY LOCATE GAS PLANT IN THE SIXTH WARD.

Chief Lips Reports That Location Chosen on Santa Fe Avenue Is Admirable One—Protest Comes from Committee of County Medical Association—Sisters Withdraw.

The City Gas Company has won a favorable report from Chief Lips and from a majority of the members on the Fire Board for its gas plant at Eleventh street and Santa Fe avenue. Chief Lips and the fire commissioners say that the location is more suitable than any other in the city for a gas plant, and Mayor Harper adds that he desires to see the plant located inside the city limits so that the city shall receive a tax revenue on the plant and the health department shall be able to enforce sanitary regulations. The directors of the new company say that they will erect a \$1,000,000 plant and Assessor Mallard has carefully studied these figures and has no objection. The company will be required to pay the city \$12,000 a year in tax and \$1200 a year in license. This morning the Fire Commission will listen to the protests of property owners who hold that the plant will be a detriment. The number of these protests has been reduced materially in the last twenty-four hours. The new gas company has taken an option on Willard Goodwin's industrial tract and will use the land for its plant in case it secures the permit. The management of the Sisters' School on Boyle Heights has also withdrawn their protest. The plant is located a mile from the city limits, and the city has concluded that their property will not be injured.

Opposed to this, however, is a strong protest from the Pure Food Committee of the County Medical Association. The physicians of this committee express the opinion that the plant will be a menace to the health of citizens living anywhere near the plant. The Fire Commission will probably decline to act on the permit at this morning's meeting as the commissioners desire to give the protesters an additional time to perfect their protests; they desire to have no foundation for a complaint that they have taken "snap judgment."

Chief Lips has relieved Commissioner Schwamm's mind greatly by discovering that the plant seeking a location at Vernon avenue and Arlington street is to be located outside the city limits; this places it beyond the jurisdiction of the Fire Board. Commissioner Schwamm has feared all along that some unnamed company was trying to put one over on the Fire Commission.

UNIQUE DISGUISE.
JAPANESE DIPLOMACY.
The restaurant inspectors of the health department concluded a week's vigilante search for the owner of Central-avenue restaurant yesterday by arresting a Jap bearing the Chinese name of Wo Ho for violating the health ordinance.

This wily Jap has been conducting the American restaurant on Central avenue near the city market. The inspectors report that its sanitary condition is a little worse than that which prevails at the old city dump. In the restaurant kitchen they found decaying fish and meat and whole colonies of roaches and vermin.

Under the city laws they have no power to close the restaurant so they are compelled to search for the proprietor. Disguised by his Chinese name the Jap escaped detection for seven days. Yesterday one of his employees "leaked" and the health inspectors secured a complaint for his arrest.

ONE GOOD CONTRACT.
WINS ON OUTAGES.
City Electrician Manahan prepared for the Finance Commission yesterday a schedule showing the amount which the city is ahead this year on "outages" in street lighting. A complaint was made that street lights often go out at night and the city loses money by reason thereof. The city pays a fixed sum per month for each light.

Manahan's report shows that the city drives a very good bargain with the lighting companies for lamps that cease to burn. A light that goes out for an hour is marked out for the night and the city charges the company with 25 cents for the "outage." The outages are reported by officers on their beats, and after from outside sources.

For seven months this year the city has collected on an average of 200 outages a month. In most eastern cities a record is kept of the number of hours a lamp is out and the rebate is on an hourly schedule. Los Angeles is about the only city in the country where an outage for an hour counts as a dark lamp for the night.

Rate Not Affected.
The Finance Committee of the Council announced that there will be no increase in the tax rate over the \$1.25 limit named two weeks ago. The extra amount to be raised by the special high school tax is cared for in this rate. This year \$1 of the rate will be used for current expenses, including bridges and park lands; 25 cents will be used to pay the interest and sinking fund on the city's bonded indebtedness exclusive of water bonds, and 2 cents will go for new school buildings and equipment.

AT THE COURTHOUSE.
THIRD RAIL SUIT
IS WON BY CITY.OFFENDING TRACK PROHIBITED
BY COURT DECISION.

No More Laying May Be Done and Steel Already in Place Must Be Removed—Case to Be Appealed to Highest Tribunal—Opinion Covers Eighteen Pages.

The "third-rail" litigation between the city of Los Angeles and the Los Angeles-Pacific Company reached a conclusion yesterday, when Judge Walter Bordwell handed down a written opinion sustaining the city on all material points and granting the prayer for injunction against the railway company.

Under the order made, the company not only is restrained from further laying of a third rail along the right of way in question, but also is directed to remove the rail where it has been laid.

The opinion covers eighteen typewritten pages, and goes at length into the history of the franchise under which the defendant company operates its cars over the route on which it was purposed to lay a third rail to broaden the gauge, while retaining the narrow-gauge track also.

The apparent conflict of this decision with one rendered by Judge Hutton two months ago is referred to and explained.

Reviewing the events which culminated in the third-rail suits, Judge Bordwell wrote of the granting of franchises for the operation of a street railway over part of the route on Hill street, between Fourth and Eighth streets, and on sixteenth street, from Georgia street to Burlington avenue, to the Los Angeles Traction Company, from which they were made over to the Los Angeles Inter-Urban Company. The latter concern, under an agreement which is quoted in part by the judge, grants the privilege of operating cars over the tracks to the Los Angeles-Pacific Company for a rental of \$5 per car.

The other franchise, granting privileges of operating a railway over the balance of the route from a point on Fourth street near Broadway to Hill street, and from Eighth street to Georgia street on Hill street, was granted to the Los Angeles Inter-Urban Company, and was to be operated by the defendant, maintaining a station at said initial point on Fourth street.

Regarding the claim by the defendant, that they do not require permission of the city government to operate their cars over the right of way where the privilege has been granted them by the Los Angeles Inter-Urban Company, without the latter company surrendering its own privileges, the judge, after referring to a legislative enactment providing that the cars of different companies may be operated over the same tracks, wrote: "As the defendant seeks to rely on amendment it was never, so far as reported, contended that the second railroad company could occupy a street without the permission of the city government. So far as I am advised, this is the first instance wherein it has been contended that, by a mere consent of two or more street railway companies, all might occupy a city street under one franchise. It is the contention of counsel for the defendant, yesterday afternoon, that the city need not give its permission to lay a third rail over the route in question, but for permission to operate cars over the route, for which the defendant company holds the franchise granted to one of them only.

"But, bearing in mind the first principle, that permission of the city government is essential to the use of streets by any corporation or person for the purpose of constructing and operating a street railway, this contention must be rejected."

This places the defendant company under the necessity of gaining the sanction of the city government to lay a third rail over the route in question, but for permission to operate cars over the route, for which the defendant company holds the franchise granted to one of them only.

Commenting on the decision, granting the injunction prayed for by the city, the court stated: "The views herein expressed in no way conflict with the decision of the judge of Department Seven of this court, as expressed in his opinion filed July 1, in which the defendant here may occupy a street under one franchise. The only point passed upon by the judge of Department Seven in that case was that the defendant here had a right to use the franchise to broaden its gauge. With that conclusion I fully concur."

"At the time of the presentation of an application for an injunction in that case, it was understood by the judge of Department Seven that a third rail was to be laid on the route in question, to avoid suspension of traffic while the work of broadening the gauge was in progress. But in the case now before the court quite different issues are presented; for it now appears that the defendant intends to maintain, permanently or indefinitely, a third rail on the route described, and this, in my judgment, it may not do for the reasons here stated, unless it obtains permission therefor from the city."

City Attorney Hewitt and Assistant City Attorney Works received congratulations yesterday afternoon from members of the Council and other officials on the victory won by the city in the suit. The point at issue is one of prime importance, as it decides the question as to whether interurban cars can be operated over tracks of a street-railway company without first securing an additional franchise from the city.

If the city had lost this suit, it would have been possible for the Long Beach and San Pedro interurban cars to run over the street-railway lines on Spring street and Broadway. An interurban company could pass through the city on the tracks of a local company without a permit from the municipality. It is understood that the Los Angeles-Pacific company will appeal the case to the Supreme Court.

There has been little opposition from property owners to laying a third rail on Hill street, and the Los Angeles-Pacific company could secure a franchise for this privilege for a nominal sum, it is said.

PRESS CLUB CASE.
ASSET DISTRIBUTION ASKED.
William Welch testified yesterday in

the Superior Court at the hearing of the case of W. H. Garland against the Southern California Press Club. The petition of the plaintiffs, dissolution of the concern, described as a copartnership, and for distribution of the assets to the creditors. Welch, on the witness stand, denied that he had taken one cent of the money gathered as salary for himself. Grossed with a tin mill; bucket. Wallace Gillette, but that was all. The rest of the money obtained had been spent for furniture, billiard and pool tables, and for the distribution of the assets to the creditors.

MILK BUCKET PROBLEM.

TROUBLE BETWEEN NEIGHBORS. Fred Jones was placed on trial yesterday in the Superior Court. He is charged with breaking the arm of Louis Grossed with a tin mill; bucket.

The complaining witness was the first to take the stand, but was allowed to leave it a few moments later, counsel for prosecution and defense agreeing that his testimony at the preliminary examination might be read. The reason of this was that Grossed could not speak more than two or three words at a time when he was under the influence of the milk bucket.

The testimony of Grossed at the preliminary examination had been written by him in answer to questions. He stated that he had gone to the home of Fred Jones on the morning of July 14, to request him for the husband time to take his cows away from the Grossed garage.

In the evening Grossed had gone to see his neighbor again, on the same ground, and found the cows in the Grossed garage. Grossed had talked of mangled cabbages and other things till Jones arose in his wrath, it is alleged, and wielded the milk bucket with tremendous force.

The afternoon session was taken up chiefly with the examination of character witnesses from Potrero, where the adjoining farms of Jones and Grossed are located, and from Downey. Many of them thought that "reputation" meant personal opinion, and discussed with enthusiasm of what they knew about Jones or Grossed, as the case might be.

The testimony seemed to establish the reputation of both men for peace and good will. However, somehow, how, according to the testimony of a Downey physician, the larger bone in Grossed's forearm had been broken. The jury will be asked to decide today if a crime was committed.

COURTHOUSE NOTES.

SUE RAILWAY. A damage suit for \$15,000 against the Los Angeles Railway Company was filed yesterday in the Superior Court by T. Fugate and his two children, Savoro and Taqui Fugate. The complaint alleges that Hildene Fugate, wife of T. Fugate, was riding in a vehicle on the railway tracks at Fourth street and Central street, on August 1, when it was struck by a car and Mrs. Fugate thrown out, receiving injuries from which she died the same day.

DAMAGES WANTED. Anna M. Herring yesterday filed a suit in the Superior Court against the Los Angeles Railway Company. The complaint alleges that while the plaintiff was alighting from a car at Central avenue and Third street, on June 8, the car was started suddenly and she was thrown to the ground. It is stated that she suffered injury to her nervous system and fracture of the shoulder. Damages in the sum of \$7500 are asked for.

THE SUPERIOR COURT.

HIS SECRET IS NOW REVEALED.
JUSTICE GETS AUTO AND HAS MERCY ON SPEEDERS.

Some of Latter, However, Don't Escape from Police Court With Expected Ease—Alleged Head of the Daylight Robber Gang Held for Trial in Higher Tribunal.

The dark secret in the life of Justice Summerfield has been exposed. During the past two days, while the township justice has been sitting in the Police Court, it has been noted that he was lenient with offenders against the speed law.

Men who came trembling and shrinking before him, expecting a big fine for trying to force their autos through the streets at a speed greater than ten miles an hour, escaped with \$5 or \$10 fines.

The justice knows how it feels to be an automobile driver for he owns a machine himself. He once owned a lot at Ocean Park, which he couldn't let go until he had sold it to the lot to any one who wanted it.

Finally came a man who traded an automobile for the lot. A friend volunteered to help Summerfield back to town with the auto. The justice was willing. For the first five minutes he was having his machine run the go too fast. For the next twenty he was afraid it wouldn't go fast enough and on the last stretch he had a suspicion that there was just one more notch left in the "high." That the chauffeur ought to discover and get in working order.

When the justice reached Washington street his machine was swarming with great shape. Two men on motorcycles went after him. His machine was slowed down. The officers came alongside.

"What do you want," said the justice. "Nothing," said the officers, recognizing the questioner.

Now Justice Summerfield knows what it means to be an automobile man. Yesterday he adopted a new plan. Four or five offenders appeared before him. All had their cars registered. They were fined \$10 each and registered objections. The justice then offered to fine each man in proportion to the value of his automobile.

The chauffeurs agreed. They began to explain that their machines were fit only for old junk and were worth not more than \$150 a ton. The justice offered to buy up all the hardware represented before him, at that price.

The chauffeurs paid their fines.

Lewis Bound Over.
John Lewis, accused of having robbed a score of his homes in the Westlake residence section, was arraigned in the Police Court yesterday, and held for trial in the Superior Court.

Lewis is a slight, fair-haired fellow with an honest, manly appearance. He

Take
BISHOP'S
CUP
CHOCOLATE

to the picnic, the camp, on all your summer outings. Made in a minute with boiling water.

Each cake contains the Milk and Sugar.
BISHOP & COMPANY

says he is of age, but he doesn't look a day older than 16 years.

Maud Dobbs, a Long Beach woman, was arrested at the same time that Lewis was taken into custody. She is being held on a charge of receiving stolen property. Two other women and two men are being searched for by the police.

The plan of the "daylight gash" was simple. It is alleged that Lewis made the route of the houses to be visited, secured descriptions of the premises and reported to the other members of the gang. Lewis and a woman member of the gang, alleged to be a prominent citizen of Los Angeles who visited the beaches was kept. Their houses were visited during their absence.

The gang took anything of value—fine hosiery, clothes, glassware, silverware, shoes and jewelry.

When Lewis was arrested on Bonnie Brae street, he tried to throw away a watch which was later identified as the property of Mrs. Julia Goodman.

When Lewis was taken to the County Jail yesterday, he said that if he was sent to Folsom, he would try to behave himself when he got out.

That Fender Case.
Deputy Prosecuting Attorney Eddies spent the morning yesterday in the Superior Court on the fight of the city to regulate the fender laws of a railway corporation holding a State franchise.

The attorneys argued the fender law. It became so tiresome that Joseph McAllister, manager of the Pacific Electric and Inter-Urban companies, left the courtroom on a bench outside the courtroom, enjoying a cigar.

He is charged with violating the fender laws, but takes little interest in the Police Court proceedings. He says he is waiting for the fight in the higher court, if the case is sent there.

GOING NORTH FOR TRIAL.

Swindler of Wide Experiences Ordered Removed to San Francisco. Knows Jail Interiors.

Henry Richard Post, under indictment in the United States Court in the northern district for impersonating a Secret Service officer, was yesterday ordered removed to San Francisco for trial. He will remain in the County Jail until the return of Judge Wilborn, whose signature is necessary.

Post was released from the County Jail about ten days ago, after serving a six months' sentence for impersonating a Federal officer, but was immediately rearrested on a similar charge.

Post, alias P. R. Henry, is a swindler, whose operations have extended all over the country. Last winter he ingratiated himself into the friendship of well-known clubmen in this city and ran up big wine bills at several clubs in which he was made welcome.

It is said that the man formerly known as P. R. Henry, but who was in the East for some time, posing as a traffic expert, investigating rebates for the government.

Post represented himself as a Secret Service agent. Evidence against him was secured and he was arrested at San Diego on January 1, 1932. He was charged with impersonating a Federal officer, and was convicted in the United States District Court and sentenced to six months in the County Jail.

The offense for which he is wanted in the North is passing a worthless check upon C. D. Harvey of San Jose while claiming to be in the employ of the government.

BASS VERY PLENTIFUL.

Artificial Lake in Ventura County Is Teeming With Millions of Fine Fresh-Water Fish.

Fresh-water bass fishing in Southern California waters has now become such a common thing for a few favored anglers that the catching of these fish practically causes no comment. There are now probably fifty private ponds and lakes where bass are raised and can be caught in this end of the State and additional ponds are being added every few months.

One of the best places for bass fishing in this end of the state and probably the best, is in an artificial lake in Ventura county, on the road to Santa Barbara, about twenty miles north of Calabasas. This lake is on the ranch formerly owned by the Bannings, but which now belongs to a Chicago millionaire named Mathew.

Mathew has been successful in securing a ravine in such position as to form a lake about half a mile wide and considerably over two miles in length. The dam costing over \$100,000. The dam was built about four years ago and it is said that the average depth of the water is over forty feet.

Three years ago the lake was stocked with black bass obtained from the State Fish Commission, according to report, and now the fish are from eight to twelve inches in length. A. Schwartz, Henry Rowe, Ed Turf and Carl Klokke of this city returned a few days ago from a flying auto hunting and fishing trip into Ventura county and tell of great sport with the bass. Bass is unnecessary and all one has to do is to throw a spinner into the lake and the fish grab it. There are millions of small bass around the edges of the lake and these are about three inches long and the lake is a living example of how rapidly bass increase.

MONEY TROUBLES.
John T. Brunton, a carpenter of Compton, has his petition in bankruptcy in the United States District Court yesterday. His liabilities are \$112, and his assets \$658, consisting mainly of real estate.

TO AID MEMORIAL FUND.

Humorists Will Give Entertainment to Raise Money for the Nye Monument.

On September 29 an entertainment will be given at Temple Auditorium to raise money for the Nye monument fund. Thirteen professional humorists, at least one well-known actor, and a musician or two, will help fill up the programme, and the men having the

arrangements in charge feel confident that the venture will be a great success, both artistically and financially.

The local members of the American Press Humorists' Association have taken charge of the arrangements and they report that they have been so overwhelmed with offers of assistance that they have had to turn down only a matinee, but an evening performance as well, in order to find room on the programme for all of the "talent" available. Rev. Robert J. Burdette has given the free use of the Auditorium for the occasion.

Already the following humorists have volunteered their services to help raise money to provide a suitable memorial for Bill Nye: Robert J. Burdette, Melville D. Brooks, Charles W. F. Howard, Wilbur D. Nesbit, S. E. Klier, E. W. Miller, Holman F. Day, Thomas Augustus D. D. Adams, J. S. Bishop, R. E. Samick, Mrs. M. J. Keley, Mr. E. S. Morton, C. W. Marsh, Henry Farnsworth, Charles Reggie, Capt. J. T. Sparks, F. E. Stusser, G. A. H. Sprague, Mrs. Jennie Shols, Warren C. Wykes.

COLUMBIA TRUST COMPANY

WELLINGTON KOAL
Wood, Hay
We Can Deliver the Goods

NOW EAGLE FEED and FUEL CO.
2219 S. Union Avenue
B4166 West 677

this means a complete record of pressure at every hour of the day is kept by the company. This record fails to show any deficiency in pressure. The statement that pressure upon the mains depends upon or is influenced by proximity to the big tanks shows that some person has been giving "hot air" to the man who wrote it. The company does not depend upon container pressure, but uses compressors with which to force the gas through the pipes.

PRUDENCE LESSON.
THE WOMEN FIND THEIR POCKETS.

TWO THOUSAND OF THEM CALL FOR LITTLE BANKS.

One Thousand Dollars Given Away and Many Accounts Started—"The Times" Campaign for Thrift Appeals to Everybody—Supply of Gifts Nearing Exhaustion.

It was "Ladies' Day" at The Times office yesterday. Two thousand women called for the little pocket savings banks and \$1000 in checks was given away. Several hundred new accounts were opened at the Bank of Los Angeles, and the officers of that institution are more than pleased over the successful result of the campaign for thrift, started by The Times.

Indirectly all the savings banks of the city have been benefited. The argument for accumulating a little surplus in the bank was a forcible plea for economy and prudence. Thousands who read the numerous reasons for saving were sufficiently influenced to start an account right away.

Many women, who appeared at the cashier's office at The Times building, said that their attention was drawn to the value of beginning to save by the advertisements and notices in the newspaper.

One lady secured six banks, one for each of her children, and started an account for her child. The checks given by The Times swelled the accounts by \$3, a pretty good interest on \$30.

"You are doing a grand work in helping to educate people to save their small change," said an elderly lady, who obtained a bank for her grandson. "Some people have to be prodded or urged into a thing. I think no one will deny the value of thrift and economy. You are certainly aiding in a splendid movement."

Curiously acted none of the applicants for banks and checks. It was estimated that fully 90 per cent. of the feminine applicants will open accounts this week at the bank on which the checks are drawn.

Last evening the distribution was principally to men who were unable to call during the day time.

The supply of banks is fast being reduced. Tomorrow the free distribution will end. Any one wanting a good bank and a check for 50 cents would be wise to call today.

SALES OF REALTY.
Simpson & Carter report an exchange of the Vermont flats, on the west side of Vermont avenue, 150 feet south of West Jefferson street, and valued at \$20,000, for a fifteen-acre orange grove, located one mile north of Orange, and valued at \$15,000. F. S. Hull owned the flats, and received, in addition to the ranch and implements, cash totaling \$5000 from W. H. Watt. The flats building contains two stores and fifteen apartments, and brings in an income of \$1800 a year.

George J. Cote reports the following sales of residences in the southwest: Dr. H. E. Sweet to H. M. Binford of the Columbia Trust Company, a nine-room, two-story residence at No. 1819 Van Ness avenue, lot 50x161 feet, at consideration of \$6000. Same agency sold to James S. Towle, a capitalist of Globe, Ariz., for O. A. Luer, an eight-room, two-story residence at No. 3019 Foster street, consideration, \$4900.

A Brooklyn public school teacher once required a lad of ten to compose a sentence containing the word "dogma." The pupil, after some deliberation, submitted his effort. It read as follows: "The dogma has five pups."

ESTABLISHED 1867—40 YEARS IN BUSINESS
Our Service is First-Class and Will Continue to Be So.

L. A. GAS

Special Announcement

Notwithstanding some reports to the contrary, we desire to say, emphatically, that our gas service today is good and we may add, the best to be found anywhere. We can assure the thousands of L. A. Gas consumers, and the general public, that this service will continue to be adequate for all needs.

This company did pioneering in the old days when Los Angeles was only a pueblo. For more than forty years we have been identified with the growth and development of this city and vicinity. During all of this time it has been our constant aim to give the public gas and heat at a moderate price.

We have made thirteen voluntary reductions in the price of gas during the past seventeen years.

Real estate men will tell you how hard it has been to rent or sell a house unless gas was on the street. L. A. Gas has enhanced property values in thousands of instances and its directors have played no small part in the life and prosperity of this community.

Age counts no less in a gas supply, utility corporation than in a great mercantile house. In both cases long years in business give rightful prestige. A perfect knowledge of any business comes from long intimate acquaintance with it. It is, therefore, reasonable to suppose that our forty years' experience in the manufacturing and distribution of gas is of value to consumers.

Our gas is full twenty candle-power at all times and never contains less than 600 heat units. We maintain ample pressure throughout our entire system. If a consumer does not receive what he believes to be an adequate service, we will appreciate it if we are advised of the fact. We desire to know of any complaints which are not receiving full and courteous attention. What sometimes appears to be a lack of pressure is caused by some local trouble in a pipe which can be quickly remedied if our Complaint Department is advised of the difficulty.

The public can communicate with us and get prompt attention to all orders and complaints twenty-four hours every day.

CIRCULATE THESE Big Facts

The series of three impressive articles, in The Sunday Times, on the development of Los Angeles, have been assembled in a single half-size 8-page sheet and are now ready for widespread distribution.

Eight Captivating Pages.

These facts, shown in the imposing tables and charts, are convincing evidence of the wonderful strides in population, finance and manufacturing industries made by Los Angeles, the freest city in America. A wide dissemination of this "meaty" literature will forever set at rest the "doubting Thomases" and jealous neighbors who are harping against the "City of the Angels."

Therefore, all the text and tables of demonstration have been printed in a convenient, 8-page sheet, and are now offered to merchants and others (who will mail them abroad) on the following basis:

In 5000 lots, \$5 per thousand. Purchasers to have the privilege of having a red line printed on the front page, reading, "Compliments of John Jones," without extra charge. In addition, The Times will insert, if desired, a page advertisement for any purchaser, charging only the cost to the office in addition to the \$5 per thousand.

In less than 5000 lots and down to 3500 copies, \$7.50 per thousand, same conditions as 5000 lots.

Less than 2500 and down to 1000 copies, \$10 per thousand, same conditions as in 5000 lots.

1000 copies or less, 1c per copy straight, with no extra printing. Send 2c for a single copy.

FOREIGN BOOKS AND AUTHORS.

It is by chance that a book is written. But it is by design that it is published. The publisher is the one who makes the book a reality. He is the one who selects the author, who pays for the manuscript, who arranges for the printing, who distributes the book, who sells it to the reader. He is the one who makes the book a part of the world. He is the one who makes the book a part of the life of the reader. He is the one who makes the book a part of the culture of the nation. He is the one who makes the book a part of the history of the world.

THOUGHTS ON BUSINESS.

STUDY FOR THE PLACE AHEAD.

BY WALDO FORDRAT WARREN.

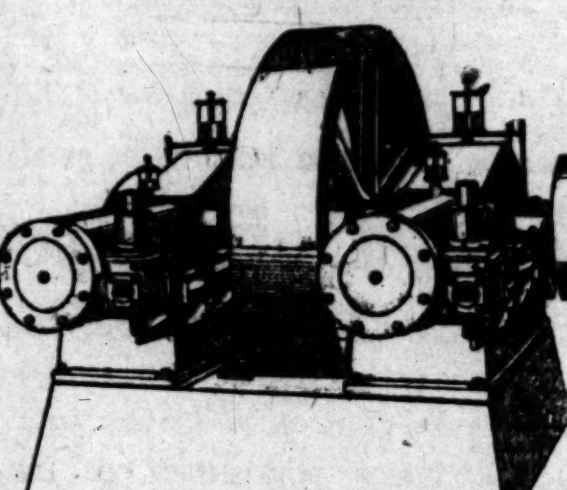

An hour a day spent in study will do wonders for almost any man. After a man has worked hard all day he may not feel like studying. The natural tendency is toward complete relaxation, and it is not to be denied that a certain amount of relaxation has its distinctive value. But it is also certain that most men waste some time every day—a few hours a week at least, which, if spent in the right kind of study, would equip them to greatly increase their earning capacity, and perhaps attain a position where life has more opportunities and larger compensations.

I heard of a man who advanced himself from \$25 a month to \$125 a month in two years' time by studying certain technical branches when his day's work was done. Another young man is drawing five times as much salary as he did two years ago, because he spent part of his evenings studying draftsmanship. A successful architect gained his start by studying in his spare time while he was serving a term at hard labor in the penitentiary.

For men employed at certain kinds of work a little daily study is a pleasant recreation. It is often more restful than many other pastimes. Studying to equip one's self for a higher position ought to be a refreshing diversion for any man. It is the chief avenue of escape from a non-progressive and unsatisfactory life.

"HUNTINGTON BEACH"

Is one of the most conservatively administered of the beach cities of the south; not as in any sense lacking in enterprise, but as in a far-sighted conserving of present and future values.

The Huntington Beach Company Says:

For about a year, and a half the Western Gas Engine Company's 120 H. P. electric light plant at Huntington Beach, has been in constant and satisfactory operation.

We strongly commend the company and its product of all parties desiring power for any purpose.

OFF FOR OLD OCEAN.

CARS IN PLENTY FOR THE THROG.

MUCH TRANSPORTATION TODAY FROM PASADENA.

Fully Seven Thousand People Are Expected to Go to the Picnic in Long Beach—Prospective Reduction in the Rates for Fire Insurance—Black and White.

Office of The Times, No. 28 S. Raymond avenue.

PASADENA, Aug. 13.—Advance news of Pasadena's annual picnic, today, is that the record will be broken. Fully 7,000 people are expected to make the pilgrimage from the Crown City to Long Beach, and there a delightful day will be spent with sports and good things to eat, with no fear of the usual eastern summer shower, known as the bane of picnics.

Seventy large cars have been provided by the Pacific Electric Railway, which will run in trains of two and four intervals during the day. The Salt Lake Road has also scheduled a train of ten big passenger coaches, which will leave the Salt Lake depot at 8 o'clock in the morning and return from Long Beach at 6:30 o'clock. This train will run through the usual eastern summer shower, known as the bane of picnics.

Secretary Coudridge of the Board of Trade is earnest in his warnings to the picnickers not to crowd the cars at either end. There will be plenty of room for all and everybody should secure seats. If any one stands it will be because he wants to.

In order that there shall be no undue crowding at the Pasadena terminal, special arrangements have been made for cars from various parts of the city. In addition to the usual service from the depot on Fair Oaks and Raymond avenues, other stations will be temporarily established. Trains of electric cars will leave Lake and Washington via Washington street at 7:30 o'clock a. m. Another will leave Lake and Washington at 8 o'clock a. m. Another will leave Lake and Washington at 9 o'clock a. m. Another will leave Lake and Washington at 10 o'clock a. m. Another will leave Lake and Washington at 11 o'clock a. m. Another will leave Lake and Washington at 12 o'clock noon. Another will leave Lake and Washington at 1 o'clock p. m. Another will leave Lake and Washington at 2 o'clock p. m. Another will leave Lake and Washington at 3 o'clock p. m. Another will leave Lake and Washington at 4 o'clock p. m. Another will leave Lake and Washington at 5 o'clock p. m. Another will leave Lake and Washington at 6 o'clock p. m. Another will leave Lake and Washington at 7 o'clock p. m. Another will leave Lake and Washington at 8 o'clock p. m. Another will leave Lake and Washington at 9 o'clock p. m. Another will leave Lake and Washington at 10 o'clock p. m. Another will leave Lake and Washington at 11 o'clock p. m. Another will leave Lake and Washington at 12 o'clock midnight.

By this means there should be no crowding of the downtown stations and everybody should be well accommodated. The picnic is expected to be a very successful one.

The round-trip ticket rate for adults is 75 cents. The half-rate ticket for children under 12 is 40 cents. With each one of these tickets is given a badge which entitles the holder to all the concessions at the beach, including half rate admission to all the regular amusements.

Various committees in charge of the preparation of the picnic report that the merchants and general public have given freely for the affair. The prizes for the sports are unusually good. In many of the events generous money prizes have been hung up. There will be coffee for all distributed free by the Board of Trade. The picnic should bring its own cup, as it will be impossible to furnish drinking utensils.

Mayor Earley has proclaimed the day a special holiday for Pasadena. The picnic is expected to be a very successful one.

BLACK AND WHITE.

Trouble of an unusual kind was vented in Judge Robert W. McDonald's court yesterday. A negro Beau Brummel, of Glendale, was charged with several years in the employ of Mrs. Newcomb, a comely white woman. Gaines's wife, a negro, and much respect by everybody at the beach, including half rate admission to all the regular amusements.

Various committees in charge of the preparation of the picnic report that the merchants and general public have given freely for the affair. The prizes for the sports are unusually good. In many of the events generous money prizes have been hung up. There will be coffee for all distributed free by the Board of Trade. The picnic should bring its own cup, as it will be impossible to furnish drinking utensils.

Mayor Earley has proclaimed the day a special holiday for Pasadena. The picnic is expected to be a very successful one.

Curiously, public sympathy is for the negro woman. Mrs. Newcomb is her next-door neighbor, but she says that her stalwart husband has no time to spend under the family roof. Mrs. Newcomb testified that Gaines had been in her employ for three years. Mrs. Gaines did not get a chance to tell all her story in court, but she is free to relate, and her friends repeat the statement that Gaines has treated her scandalously. She says that when she married Gaines she had a piece of property, which her husband prevailed upon her to mortgage to Mrs. Newcomb, and that by this means she stands in danger of losing her only resource except her strength.

In such circumstances there is much indignation and deep feeling concerning the matter, and the outcome of the trial is looked for with interest. More than one man today threatened to assist in running Gaines out of town and witness other steps as may be necessary.

INSURANCE MAY DROP.

It is expected that insurance rates will be lowered in this city in the near future. Yesterday Alexander W. Field of Los Angeles, district manager of the Pacific underwriters, took a tour around the city and especially through East Pasadena. He was accompanied by Fire Chief Clifford H. H. Klemm, secretary of the local board of underwriters, and Clarence Bunnell, a member of the local board of underwriters. They made a thorough inspection and it is thought that the outcome will be a report to the San Francisco board which will result in a cut in insurance rates.

CROWN CITY BRIEFS.

One of the best realty sales recently made is that of the property on Washington street west of Los Robles, 21x60 feet, which was sold yesterday for \$22,000. The sale was effected through Klepper & Curi, for Calvin Thornton to M. A. Atwood.

At the request of Mayor Earley the report of Engineer Ezra F. Scattergood on the figures compiled by Superintendent C. C. Glass for the municipal lighting plant, was delivered last week. Mayor Earley desires the expert to go into the relative merits and comparative cost of incandescent and arc lights.

Two meetings were held yesterday at the Pasadena Prohibition Chautauqua in the big tent back of Masonic Temple. This rally of the temperance people is attracting crowds. Rev. Percy D. Phelps was in charge of the afternoon session and Mrs. Phelps delivered a stirring address on "Women and

Good Citizenship." Today at 2:30 o'clock in the afternoon there will be a great temperance rally of children under the direction of Mrs. Payne and Mrs. Mary A. Stewart. In the evening at 8 o'clock Rev. Walter Mitchell, rector of the Long Beach Friends Church, will deliver a message.

SOCIAL FUNCTIONS.

Mrs. B. C. Kendall of South Los Robles avenue was yesterday afternoon the hostess at a charming picnic, which was given for those who took part in the play "The Romance of Philippe Manor," at the home of Mrs. C. H. Mears of Elizabeth street. This place was selected as furnishing a setting counterpart to that in the first scene of the play and luncheon was served in the quaint style and with the same delectable viands that figured in the old colonial picture. The place cards were ornamented with dainty colonial maidens and for favors post cards with pictures of the original Philippe Manor were used. Among those present were Meses W. D. Turner, A. G. Merriman, H. H. Harris, W. H. Baird, Hagerman, F. J. Strief, Miss Louise Crawford, Pauline Lutz, Louise Barker and Anna Machin.

Miss Marjorie Driscoll entertained yesterday afternoon in honor of Miss Marion Horton and Miss Irene Mercereau, who leave next week for Stanford University. Stanford colors were placed in decoration and 600 was played. The prizes were won by the guests of honor and there were twenty presents.

Miss Elliot of South Orange Grove avenue gave a 600 party yesterday afternoon complimentary to Miss Jessie Thompson and Miss Louise Crawford. The 23d of this month. Tables were arranged for forty guests and the rooms were ornamented with Brunner roses and plumbago with quantities of ferns.

Phelps for wall paper and paints. Photo supplies, Morris-Thurston Co. Wadsworth sells paints.

TAX FRANCHISES NOW.

Monrovia City Trustees Held That Special Privileges There Are Valuable.

MONROVIA, Aug. 14.—The Board of City Trustees acting as the Board of Equalization closed a three days' session today. Few changes were made in the Assessor's list, which covered property to the amount of \$2,000,000. The clerk was instructed to notify the Pacific Electric Railway Company, the Edison Electric Company, the Southern Pacific Company and the Monrovia Telephone and Telegraph Company to appear at 2 o'clock p. m. Monday and show cause why their respective franchises for rights and privileges in the city should not be assessed as a special privilege to each company was not fully decided upon. A motion was carried giving the Pacific Electric Company's franchises value at \$1,000,000 and the others were taken under advisement.

Heretofore the city has only collected taxes upon the right of way and rolling stock of the various companies and this is a distinct departure from the old regime. Franchise privileges are now at a premium in Monrovia and the board seem to reason why the holders of such privileges should not pay taxes on them.

MONROVIA BRIEFS.

J. H. McClymonds, City Engineer, returned yesterday from a month's vacation trip to points in Louisiana and Colorado.

The B. R. Davidson Contracting Company sent a force of men yesterday to Reliance, where the company has signed a contract for street work to be done in a similar manner to that on Monrovia streets.

Monrovia pleasure seekers are finding that the foothills of the town afford ideal spots for summer camps. A. E. Cronenweber and family are located in a tent house, the head of Myrtle and George and Hal M. Siemons and family have fitted up quarters on their ranch in Clover Leaf Canyon.

George Good are at Rincon for a fishing and hunting trip.

C. N. Whitaker of El Monte returned yesterday from three weeks' vacation at Murietta Hot Springs.

Mrs. Ines Williams and son, Louis Williams, have gone to Murietta.

Prof. and Mrs. M. R. Williams and children will leave tomorrow for a three weeks' stay at Alamitos Bay, where Prof. Williams owns a home.

HOLLYWOOD VALUATION.

Half Million Increase in Year—Los Angeles-Pacific Buys Two Franchises—Fire Bond Scheme.

HOLLYWOOD, Aug. 14.—The reported assessed valuation of Hollywood property is \$2,654,462, an increase of nearly half a million in twelve months. For the current fiscal year \$45,583 is to be raised by taxation—\$15,575 for bonds and interest, \$30,008 for maintaining the Public Library and \$27,708 for the city department.

TO BRING OUT VOTERS.

The Hollywood Volunteer Fire Department will hold a coupling contest on the afternoon of August 18 in front of the City Hall. Chahuenga Hose Company has challenged the ten other companies to a 100-yard run, coupling to water, running out 50 feet of hose and getting water through the same. The contest will be held on the day the fire bonds are to be voted in order that a large vote may be brought out.

FRANCHISES BOUGHT.

At a special meeting of the City Trustees the Los Angeles-Pacific, represented by Messrs. Gable and Sherman, bid for and purchased two local water railway franchises, one on Western and Franklin avenues, and the other on the Sepulveda Canyon road. One hundred dollars was paid for each. The first-named franchise was wanted for the purpose of giving the railway an inlet to Hollywood, by way of the proposed Fourth-street subway, it having already secured a right of way from the southern limits of this city to the point where the subway opens near Vermont avenue.

The second franchise gives the company access to its stone quarries in Sepulveda Canyon.

WATCHING THINGS GROW. PLANT SHARPS BUSY THERE.

PATHOLOGICAL LABORATORY IS NEAR COMPLETION.

Whittier Institution Will Be Used for Scientific Studies of Various Kinds of Products Raised in That Community—Fifty-seven Varieties of Tomatoes on Trial.

WHITTIER, Aug. 14.—The new pathological laboratory, being put up by the State University as headquarters for its work for the Southern California ranchers, is nearing completion. A force of men is now engaged on the interior finish. The building on the corner of an acre, donated by the Whittier Institution, is a two-story structure, shingled, and with thirteen large rooms, a latticed shed and a conveniently arranged greenhouse annex. The first floor contains a large laboratory, general and private; a library and chemical and sterilizing laboratory; the second floor is for additional laboratories, a photographer's room with connecting darkroom, and a well-lighted room, which will later be utilized as a museum. The building stands in the center of an acre, donated by the Whittier Institution, the Walnut Growers Association, the Board of Trade and the Pacific Electric Company. With its equipment the laboratory will represent an investment of fully \$10,000. A feature of the projected work here will be the experiment beds, from which much of practical help to the rancher is expected.

A collection of fifty-seven varieties of tomatoes has been set out and is being watched carefully, so that the best variety may be known and its culture determined. This, in itself, will mean a great help to the tomato grower of the La Habra Valley, where sixty carloads of this section's crop are shipped annually.

A similar collection of walnuts, including sixty different varieties, grafts and root stocks, has been set out at the State school grounds, and much help to the walnut industry should result from this investigation. The State plant pathologist, Prof. Ralph E. Smith, has his headquarters here, and is assisted by several others.

COMPLETED OBSTRUCTIONS BAD.

Completed obstructions of the arteries proceeding from a recent accident street work, continue to leak out. Piles of sand, gravel, heaps of bags of cement, it is said, have been left on the streets where grading is being done, no lighted signs are put thereon to guard the unwary traveler who ventures out after nightfall.

Physicians, too, are not satisfied. Fully, of sitting on his horse's head for half an hour, in inky darkness, until help came from a belated pedestrian, so the anatomy of the night is a hurry-up midnight call for a physician on South Newlin avenue at a rapid pace, when confusion overtook the doctor, falling heavily, over the turning of the buggy and throwing the physician out. To get the horse up alone, in the darkness, seemed impossible. The doctor, however, was not deterred. He called for aid. A passerby, who had been waiting for a taxi, had taken the buggy over about five feet of sand and gravel, and lay finally on a pile of cement. A prominent physician, who had been waiting for a taxi, had taken the buggy over about five feet of sand and gravel, and lay finally on a pile of cement. A prominent physician, who had been waiting for a taxi, had taken the buggy over about five feet of sand and gravel, and lay finally on a pile of cement.

VENICE VILLAS ARE CONVENIENT.

HOLD UP ALLEGED.

Pomona Property Owners Think There Is Conspicuous Among Firms Bidding for Paving Contracts.

POMONA, Aug. 14.—The Board of Trustees yesterday voted unanimously to reject all bids submitted for paving Third and Thomas streets. This action resulted from the receipt of a petition signed by most of the property owners of the streets named, requesting rejection on the ground that the price in the bids submitted—24 cents a square foot—is excessive.

Several weeks ago a Los Angeles company offered to pave the streets for 14 cents. Later, this concern was allowed to withdraw its bid. It assured the Trustees, however, that the price was a fair one.

When the second lot of bids was opened it was found that the price quoted by each of the firms represented was 24 cents a square foot.

Property owners on the thoroughfares to be paved feel that there is a conspiracy on the part of the contractors, and if more favorable terms cannot be secured, favor some sort of roadbed other than asphalt. They do not care to be "held up," they say.

VENICE VILLAS ARE CONVENIENT.

TANDEM STRIKES AGED MAN.

Accident at East Whittier Is Likely to Result in Death of the Victim.

EAST WHITTIER, Aug. 14.—Elwood Lambert lies in a precarious condition as the result of being struck yesterday by two speeding cyclists on a tandem. The injured man is 73, and his advanced age, with the serious shock, makes his recovery almost impossible. The old man had been to Whittier, and was walking back, when he left the side of the road in order to get into the carriage of a passing acquaintance. The bicyclists blew a whistle and attempted to avoid the old gentleman, but the tandem is such that he evidently failed to hear their warning. He was struck in the back with great force, being picked up unconscious. His wife, who was with him, called for help and relatives and physicians being quickly summoned by telephone. The aged victim has not regained consciousness since the accident, and is slowly sinking. No hope is given for his recovery.

VENICE VILLAS, reasonable rates.

A SIGNIFICANT FACT.

The only newspapers in Los Angeles that dare print regularly, day by day, a sworn statement of circulation, are The Times and The Evening News.

CHURCH BUSINESS GROWS.

BIG GAIN FOR THE CHRISTIANS.

FIGURES SHOWN AT LONG BEACH ASSEMBLY.

Officers for the Southern California and Arizona District Body Are Elected for the Coming Year—City Attorney Reports on Acquisition of Municipal Water Plant.

LONG BEACH, Aug. 14.—At the session of the Christian Assembly of Southern California and Arizona, just before noon today, the Nominating Committee made its report, and its recommendations were adopted.

C. C. Chapman of Fullerton was re-elected president; J. N. Smith of Los Angeles, first vice-president, and Lawrence Williams second vice-president. Mr. Williams is an Arizona delegate, and his work will be in that field. A. K. Crawford was selected as treasurer of the interior field, and the newly created office of recording secretary was conferred upon J. F. Ralston.

As members of the evangelizing board to serve two years, six were elected: C. C. Chapman, Fullerton; A. K. Crawford, J. N. Smith, Los Angeles; S. J. Chapman, W. J. A. Smith, W. L. Thornton, Long Beach. To serve one year, W. L. Thornton, Long Beach; A. C. Smith, F. G. Tyrrell, W. L. Thornton, Long Beach; A. Young. The position of corresponding secretary of the evangelizing board was accorded to Frank K. Lewis of this city, the incumbent.

Reports occupied the morning session after short addresses by Dean Norton and Business Manager Gough of Pomona College, while the Christian Church is joint partner with the Congregational Church. A complete resume of the work of the college was presented, after which the following were elected as the Christian directors of the college: W. L. Porterfield, C. C. Chapman, J. N. Smith, F. M. Dowling and John Fleming.

Reports were also received from the Auditing, Future Work, Resolutions and Missionary Calendar committees. The Committee on State of the Work sounded a note of warning in the matter of higher criticism and the report was referred to the pastors for digestion. Broad resolutions on the cause of temperance were also adopted. The Missionary Calendar Committee suggested other action on the part of the churches of San Francisco should be taken throughout the Assembly district, and this was agreed to unanimously.

President H. D. McAnney of Berkeley gave a report on the work that has been accomplished at the Berkeley Bible Seminary, the theological school of the Christian churches in California.

Although not in any wise connected with the State University, the two schools cooperate. Last year there were fifty-five students enrolled, and plans were presented to the convention for the increase of equipment in building and professors to the extent of \$200,000.

Among the items of Secretary of the State of the Work, the statement that \$45,000 had been raised the past year for the home missionary work. There had been a fine record of churches with 10,000 members, and a property valuation of \$625,000. In the year there were 1000 converts by baptism, and the total number of churches was 100.

WATER PLANT OPINION.

City Attorney Skinner has submitted to the City Trustees a detailed opinion on the rights of the city to establish a municipal water plant, in view of the existence of two water companies working under twenty-year franchises. He expresses the opinion that the failure of the Bouton company to maintain a six-inch pressure as provided by the contract and the faulty condition of the mains, abates the city of observance of the contract, which contains a provision for the city to acquire its own plant. The attorney also discovered that the Bouton company in its bid for a franchise agreed to pay 2 per cent. of its gross receipts after five years from July 1, 1896. The first returns on the toll made of four acres have been paid and 12 per cent. of three years' receipts are now due. The Trustees deferred action for one week.

SEASHORE RUMBLINGS.

Marco Vessella, director of the Italian Band, is greatly worried over the report sent out from Pasadena that he had refused to lead the band as a compromise for Mrs. Elmer Woodbury for her solos on Pasadena Day. Vessella says Mrs. Woodbury sent him two pieces of music on Friday, notifying him to have the band score arranged for a rehearsal, Monday, Saturday and Sunday being busy days for the director, it was impossible to do so, and when Mrs. Woodbury appeared Monday Vessella sent word of his failure and suggested a piano accompaniment. As the scoring of the music was extra labor for the leader, with no remuneration, Vessella does not enjoy the adverse criticism he has received.

OLD TWIRLER PASSES.

HIGH SCORE FOR DEAD PLAYER.

NOTED BASEBALL MAN DEAD AT SOLDIER'S HOME.

His Headstone in the Veterans' Cemetery Will Bear the Two Thousand and Mark—Lawn Fete Given at the Governor's House Proves a Pronounced Success.

SOLDIER'S HOME, Aug. 14.—Scott Hastings, at one time noted in professional baseball circles, died at the home hospital this morning, after a lingering internal illness. He claimed to have belonged to the famous "White Stocking" nine of Chicago. Hastings, who served in the Civil War, in Co. B, One Hundred and Forty-fifth Illinois Infantry, was a native of Ohio, admitted to the branch from Santa Cruz in 1905, and was aged 61. A niece, Marah Holman, resides in Fresno.

The grave of Hastings will be marked by headstone No. 1000. Of the nearly 10,000 veterans that have been cared for since the organization of this branch the former number marks the graves of those who have died in, or have been brought to, the home for burial. Numbers have doubtless died while on furlough, of whom the home has not received notice. The records here only show they have failed to return from the furlough, and after sixty days, are "dropped from the rolls."

LAWN FETE SUCCESS.

The lawn fete given at the Governor's residence here, yesterday, by Mrs. O. H. La Grange, in aid of the plans for the new home of the Episcopal Church of Santa Monica, was, from both a philanthropic and social aspect, a success. Pecuniary results of the occasion are especially gratifying to Mrs. La Grange, with whom the plan originated, since it has freed the church from the troublesome debt of \$10,000. Besides officers and families of the home, cars filled with visitors from Santa Monica and near-by places thronged the beautiful grounds, where tents and tables, under spreading trees, tempted the willing visitors to philanthropic purchases.

The ladies of the home helped the gracious hostess in receiving and entertaining the guests. Of these Mrs. La Grange profitably presided over the punch bowl (fruit punch, by the way), assisted by Miss Mildred Gedley. Mrs. O. C. McNary was also in charge of the refreshments. Mrs. La Grange, who has been in the home, made up a gossip fortune teller, from the opening of a line-embroidered tent, lured young folks without number to learn of their future, with joy to them and profit to the cause. The decorated rooms of the home, the late and Mrs. La Grange, who has been in the home, made up a gossip fortune teller, from the opening of a line-embroidered tent, lured young folks without number to learn of their future, with joy to them and profit to the cause. "South of the Tehachapi."

REPORTS FROM CORRESPONDENTS OF THE TIMES.

ERRATIC RIVER.

STRUGGLE TO HEAD OFF THE SANTA CLARA.

County Supervisors Advise for Heavy Work for Keeping the Stream from Flooding the Valley.

Aug. 14.—The County Supervisors have decided to attempt to head off the Santa Clara River and the following the encroachment of the farming lands of the valley and leave the river to the Southern Pacific company, built at an expense of \$1,000,000, and the county bridge, and to receive repairs to the bridge of several thousand dollars.

The heavy work to head off the river, and with the use of the best farming of the valley and leave the river to the Southern Pacific company, built at an expense of \$1,000,000, and the county bridge, and to receive repairs to the bridge of several thousand dollars.

REDLANDS VALUES CLIMB.

City Assessment Will Undoubtedly Amount to Over Seven Million Dollars.

REDLANDS, Aug. 14.—Figures compiled by City Assessor L. W. Clark show that the assessed value of Redlands property is \$6,967,512. This is assuming that the railroads in the States will be assessed at the same rate as the other property. The increase in the railroad assessments will be greater this year than in any year since 1905. The city tax levy, including the railroad assessments, will be more than \$7,000,000. The increase in the new buildings and additional orange groves over last year is more than a quarter of a million dollars. Considering the fact that in 1906 Redlands valuation was less than \$2,000,000, the present valuation is a proof positive of remarkable growth of the city.

HEAR FROM GREENE.

John C. Austin and George H. Snyder, architects for the Col. W. C. Greene residence now in process of construction here, were in the city yesterday inspecting the progress. They stated that chief attention will be given this fall to getting the materials on the ground and the rains begin and that the winter as much will be accomplished in actual construction as possible. Mr. Snyder, who has just returned from a visit to Col. Greene at the latter's big ranch at Canaan, says that the colonel is greatly interested in the raising of a revolution, but that he proposes to stay in Redlands for a considerable part of each year as soon as his house is completed, which will probably be a year from the coming fall.

FIND THE FLOATER.

Charles Allen, a member of the Redlands Y.M.C.A., received today a check for \$5 from T. R. Fulton of Bessemer, Ala., having become entangled in the money in a unique manner. When Mr. Fulton was in California last spring he made a trip to Catalina, to the island of Santa Catalina, on the way over to the islands, Mr. Fulton enclosed his card and a note in the railway and threw it into the Pacific. The note stated that \$5 would be paid to the finder if the card was forwarded to Bessemer. Incidentally, Mr. Fulton was in the city yesterday and was found and returned to him. Young Allen was a member of the party of T. R. Fulton, who was in the city in July and while there found the bottle and returned the card to Mr. Fulton.

VENICE VILLAS ARE CONVENIENT.

COLTON, Aug. 14.—L. C. Newcomer has received a telegram telling of the sudden death of his father, Maj. Charles Newcomer, at Mt. Morris, Ill. Maj. Newcomer was of age and had lived in Mt. Morris for thirty years. He and his wife spent several winters in Colton.

COMING TO TOWN.

This was the announcement made by City Marshal Adkins this morning. He stated that several of the men of a considerable distance on their way to some other town.

THE LINCOLN SCHOOL BUILDING IS BEING PAID FOR.

Dan Murphy and a party of relatives came up from Los Angeles in a touring car yesterday, and visited the California Portland Cement Works, of which Mr. Murphy is president.

CARL LANTS OF PALO ALTO IS VISITING HIS PARENTS, MR. AND MRS. A. LANTS.

HIGHWAYMAN AT ORANGE.

Hold Up Bicyclist at Revolver Point. Man Injured in Freight Caboose.

NEWS NOTES.

ORANGE, Aug. 14.—Two hold-up men operated successfully here last evening, and escaped with their booty. As Ellis Robertson was returning from hand practice in Santa Ana, he met two men between Main and Batavia streets. One of them grasped the handlebars of Robertson's wheel, while the other held a revolver under his nose. The victim surrendered a fine gold watch and several dollars in silver. Then the highwaymen cut the rear tire of the bicycle and disappeared. Robertson telephoned to Sheriff Lacy at Santa Ana. The men have not been found as yet, though it was learned that they had a buggy.

WOUNDS MULTIPLY.

George Cuddeback, a well-known Tehachapi rancher, is at the home of his brother, M. C. Cuddeback. He is recovering from a strange accident. He was riding in a caboose from Mojave to get a physician to care for an injured hand, when the train, in switching, bumped into such force against a car as to throw him from his seat. His head was severely cut.

HAY RAKE RUNAWAY.

Wilson Gaerte of El Modena is nursing a broken shoulder and many cuts and bruises sustained in an exciting runaway. He had been raking hay, when his horse became frightened and ran away.

ORANGE NOTES.

H. Pierce Hyle and wife will soon leave for the East. Hyle having sold his furniture business to F. M. Shadel of this city.

Orange people were grieved to hear of the death of Mrs. W. C. Mack at the home of her sister, Mrs. William Adams, of Los Angeles. Mrs. Mack lived here for several years.

Mrs. George Wright, wife of the editor of the Orange News, and little son have gone to Glasgow, Kan.

Mr. and Mrs. William M. Gregg and children and their guest, Miss Mabel Cullen of Pasadena, are enjoying an outing at Newport Beach.

Miss Minnie Coates is one of a party of young ladies spending a week at Laguna Beach.

Mrs. J. Stone of El Modena has returned to her former home in Chautauk, Kan.

Mr. and Mrs. Robert Wallace and daughter, Mrs. Mary Schilling, are spending a three weeks' vacation at Laguna Beach.

Good Japanese bungalows at Venice.

SANTA ANA.

SANTA ANA, Aug. 14.—George Williams this morning entered a plea of not guilty to the charge of assisting the escape of Isiah Baker at Fairview. According to the confession of Alfred Clary, Williams was chosen to help hold the old man while Clary knocked Baker down, Williams ran away. It is said, leaving Clary and the third member of the trio, Price Hanton, to finish the job.

Charles Ray, who was taken to the County Jail last Sunday with hydrophobia symptoms, has recovered, and it develops that the teeth gnashing and snarling was caused by drinking too much wine. Ray was roped at the San Joaquin ranch, where he had been jumping at the men and endeavoring to bury his teeth in their flesh.

WILL REBUILD FUEL PLANT.

Fire at Establishment Near Huntington Beach Causes Eight-Thousand-Dollar Loss.

HUNTINGTON BEACH, Aug. 14.—It has been discovered that the recent fire at the Anthracite Fuel Company's site, two miles north of Huntington Beach, caused a loss to the company of \$8,000. The fire burned the storehouse and the building of the manufacturing plant.

The machinery in the latter was slightly damaged, the greatest loss on this being the burning of pulleys and shafting. The fire is believed to have been started by incendiaries. There have been a number of mysterious fires in the vicinity recently, all of which are believed to have been set.

At the beginning of the fire dogs about the factory were barking furiously, and Watchman Joe Bracco went to investigate the cause of their disturbance. He went to the storage house, passing through the fire, and to the other. When he reached the far end of the building, which was 2530 feet, he was started by the discovery of fire in the tool room in the opposite end.

He hastened to the spot, but was unable to extinguish the fire. The floor had been saturated with distillate and gasoline, and the whole room was in a blaze in an instant. Other employees of the factory came to his assistance, but the combined efforts of the entire force proved unavailing.

The storage house was quickly consumed, and the flames spread to the main building. This was also burned quickly.

The company will rebuild at once, and it is believed the buildings can be rebuilt and the machinery repaired within six weeks. The plant had not been in operation for short time, and the machinery had just been adjusted in good running order. The company had arranged to employ a night shift today, the plant being able to keep up with the demands for the manufactured product by running a day shift only.

PULLERTON.

PULLERTON, Aug. 14.—Rev. G. W. Cocking has returned from Murietta. He reports having taken 7000 pounds of produce from thirty-five farms. The market price is from \$40 to \$75 a ton. Mr. Cocking owns a ten-acre place at Murietta.

James Baxter is exhibiting one vine containing twenty-four fair-sized fully developed sweet potatoes. There will be a good crop in this section.

S. W. McCulloch has been appointed carrier on rural route No. 2, which takes in the oil wells in the Olinda district.

O. H. Embree and family, William Walker and wife, W. Potter, Miss Olla Buckley, Clyde Turner, Mrs. B. M. Males and Ed Cope and wife, have returned from a month's outing in Bear Valley. Mr. Potter killed a deer. Trout fishing is reported good in the valley. Much snow is on the higher points. A number of large rattlesnakes were killed.

The Pullerton Vegetable Union has commenced marketing its large crop of sweet potatoes. It will ship several thousand sacks during the next few weeks.

Manager Curtis of the California Vegetable Union was here this morning, and closed several of the coming tomato crop of La Habra, Fullerton and Whittier, estimated at over 600 acres.

IDYLLWILD.

IDYLLWILD, Aug. 14.—Miss Genevieve Hamilton of Los Angeles arrived in Monday's train from the city. She has with her mother here. Others coming Monday were Mrs. Hosp and daughter, Riverside; Miss Alma Morais, Miss Martha Leonard, Mr. and Mrs. B. McNutt, Mr. and Mrs. Charles Winter, T. B. Foster, Los Angeles, and Alex McKitt, wife and family. The Palms. Mrs. George Jordan of Los Angeles came Tuesday to spend a short time here.

Harry M. Palmerston of Spokane, who has been with his mother, Mrs. Palmerston-White, for several weeks, has left for Belmont, where he is a student.

BUNGALOWS AND VILLAS AT VENICE.

OUTINGS FOR CLERKS.

Riverside Merchants Give Wednesday Afternoon for Recreation for Employees.

RIVERSIDE, Aug. 14.—Following the lead of the grocers, nearly all of the other merchants of the city have decided to give themselves and their employees a Wednesday half-holiday through the heated term. The clerks are down in the majority of the Riverside stores this afternoon and the clerks are dispersing themselves in the grocers or are following some of the mountain trails. The plan was brought about through the efforts of the Riverside Business Men's Association, and the merchants have signed an agreement to keep their stores closed on Wednesday afternoons for the next two months.

SPRINGS ANKLE.

Miss Helen Borden, daughter of Mr. and Mrs. Gail Borden of Alhambra, fell from one of the large boulders on the summit of Mount Rubidoux, yesterday afternoon, and sprained an ankle. She and her mother, with a party of friends, had gone up the Huntington Drive in their touring car to obtain a view of the city, and the country around, when the accident put an end to the sightseeing. In the party were Mrs. Borden and daughter, and Miss Ada Seely, Jack Machin, Lloyd Roberts and C. E. Lohman. They reached the city yesterday morning from San Diego and would have spent some time touring this part of the State but for the accident. They returned to Pasadena later in the evening.

BROTHERS THEM LITTLE.

Orange and lemon shipping firms are suffering some inconvenience on account of the telegraphers' strike, although the situation is not nearly so serious as it would have been had the strike occurred when citrus fruit shipments were heavy. In an interview, P. A. Little, manager of the Arlington Heights Fruit Company, said: "If this was the busy season for the fruit men, it would not be a serious inconvenience upon us, as we are obliged to know the markets every day. Without this information to guide us in our shipments, we would be at a disadvantage, and it is certainly a blessing in disguise that the telegraphers' strike has come three months sooner than it might have. Mr. Little says that he is receiving communications from the Chicago office of the exchange with a fair degree of regularity. The Chicago office covers the territory from Omaha to New York by telephone daily, and is thus enabled to keep California shippers supplied with the information which is an indispensable guide in their work.

VENICE VILLAS, REASONABLE RATES.

TEDDY BEARS BARRED.

VENTURA, Aug. 14.—Teddy bears will stand a poor show hereafter among the youngsters of this city. The Tuesday Club, an aggregation of intellectual and leading ladies of this city, at its meeting yesterday, discussed the Teddy-bear subject at length, with the result that the club put its foot down upon the bear fad and voiced its determination to discourage it in every way possible, while encouraging the use of the old-fashioned dolls as playthings for the babies. The club member of the club who has a baby says there is a prospect of the club's purchasing a genuine doll for her infant, so that the little chap will not be tempted to fall into the pernicious Teddy-bear habit.

Miss Irene Williams of Ventura avenue has been offered and has accepted a position in the public schools of San Francisco as a teacher. Miss Williams will leave in a few days to take charge of her new post. She has been teaching for some time in the avenue school.

The Board of Supervisors has appointed as delegates to the Irrigation Congress at Sacramento, Messrs. L. J. Rose, J. C. Daly, John Burson and M. Atmore.

Good Japanese bungalows at Venice.

FAIL TO CLEAR THIS MYSTERY.

EVIDENCES OF WOMAN SLAIN IN SAN DIEGO.

Parts of Feminine Clothing Found on Dock with Wrecks of Hair and Blood—Note Found Seems to Support the Murder Theory—Wireless Man Going to Alaska.

SAN DIEGO, Aug. 14.—A late hour tonight the police had not yet unraveled the mystery of the finding of parts of a woman's clothing, torn and bloodstained, on the outer end of the Santa Fe dock last night, with a woman's hair lying near a pool of blood. This caused the police to suspect that a tragedy had been committed there. A woman's garter and a black leather purse were also found. In the pocketbook was a note reading:

"Dear May: Meet me tonight at the old place at 8 p.m. If you do not I will fix you and him both. Believe me, I am in a desperate hurry. So long, my once little sweetheart. B.K."

A line of blood spots from the place where the woman's hair lay, led to the suspicion that murder had been committed and a body thrown into the water. Divers have been investigating that part of the theory today.

GOES TO ALASKA.

A. J. Millison, who has been chief operator at the Point Loma wireless telegraph station since the station was established, has been transferred to a point in Alaska. He is succeeded by W. R. McQuinn, who was formerly stationed at Point Arguello. Millison is the man who accomplished the feat of communicating with a station located on the Atlantic coast in Florida, and also with the battleship Georgia while several miles at sea on the Atlantic Ocean.

DORAN IS HELD.

W. A. Doran of Escondido has been bound over to the Superior Court on the charge of killing G. A. Ellison, having been brought to the County Jail yesterday. Doran has been running high in the country where the shooting occurred, and when the result of the examination was made known, he was carried to the County Jail. Doran is a man of about 35 years of age, and is a native of California. He was arrested at Escondido, where he was found with a revolver in his possession. He is being held in the County Jail pending further action.

NEW COUNTY OFFICERS.

The Supervisors have fixed the bonds of the officers of the new county in the Imperial Valley, as follows: Judge of the Superior Court, \$2000; Sheriff, \$10,000; Auditor, \$2000; Treasurer, \$20,000; Assessor, \$2000; Tax Collector, \$20,000; District Attorney, \$2500; Coroner, \$2500; Public Administrator, \$2500; Recorder, \$2000; Surveyor, \$2500; Superintendent of Schools, \$2500; members of the Board of Supervisors, each \$1500.

BAT CITY DRIFT.

Capt. Al Redfern, life guard at Coronado Beach, has recovered from the effect of a spider bite from which it was feared that he would lose a leg. He is well and on duty again.

A count of the city cash, yesterday, by the City Auditing Committee shows \$182,358.90. As the running expenses of the city for \$40,000 per month, and the city has been running on a deficit, it is feared that there will be a shortage.

The coal famine has been averted by the arrival of the steamship Hornam from Nanaimo, British Columbia, with a cargo of 6000 tons. The occasion of the shortage has been the calling here of so many coast-playing vessels for fuel.

Timothy Mee, traveling passenger agent of the Texas and Pacific Railway, and J. W. Monahan, traveling passenger agent of the Burlington route, were in the city yesterday looking into the prospective winter travel of this city. A large travel is anticipated, they say, by all railroad men.

The Sanitary Supply Company of Los Angeles is to open a branch office and factory in this city, with the intention of manufacturing its product for this and Arizona trade.

Banks for Busy People.

Tonight, Wednesday, from 8 to 9 o'clock, pocket savings banks and checks for sale will be distributed at the Times Office to persons whose business will not permit of their coming to the bank. The evening and let The Times start you with a savings account.

TOWNWIFE OF CORCORAN, KINGS COUNTY.

will be opened and put on sale early in September. The woman's name is Mrs. M. Little, and she is a native of Kings County. She is now being built there. Watch party for date. Mr. Little says that he is receiving communications from the Chicago office of the exchange with a fair degree of regularity. The Chicago office covers the territory from Omaha to New York by telephone daily, and is thus enabled to keep California shippers supplied with the information which is an indispensable guide in their work.

Why I Invented the Electric Belt

Twenty-five years ago we invented the first successful electric belt.

We had been treating people for years with drugs and were determined to find a better way of curing disease, for we knew that the human body was a machine and that it could be cured by electricity.

We have now found a way to cure all diseases by electricity. We have made the most perfect electric body appliance known, and our twenty-five years' experience in treating disease with electricity enables us to tell just what cases we can cure. If we can't cure you, we will tell you so.

Our belt cures weakness of any kind, whether in the nervous system, heart, liver or kidneys, rheumatism, weak back, sciatica, lumbago, dyspepsia and all other troubles where new life can restore health.

When I have told you the truth, you will see that the new belt really is a wonderful remedy. It relieves the various ailments and restores health and vigor. We have cured thousands of cases, and we can cure yours. Write for our free book, "The Electric Belt," which will tell you all about it. It is a masterpiece of science and art, and it will cure you. Write for it today. It is yours for the asking.
